

Tree Removal Application

Tree Removal Application is required for the following:

- 1. Single Family Residential Properties:** The removal of six (6) or more trees on any single-family residential property or the removal of any tree with diameter breast height (DBH) of thirty inches (30") or greater on a residential property. NOTE: No homeowner may remove a tree within two (2) years of the issuance of a certificate of occupancy as planted by the developer to meet tree density requirements.
- 2. Developments where a Master Plan, Land Disturbance, Clearing or Grading Permit is not required:** The removal of any tree on any lot or lots with a DBH of six inches (6") or greater, or the removal of three (3) or more trees with individual DBH of less than six inches (6").
- 3. Developments where a Master Plan, Land Disturbance, Clearing or Grading Permit is required:** Tree removal will be reviewed in conjunction with the underlying permitting process.
- 4. Timber Harvesting:** The applicant must fill out the Timber Harvesting application and comply with Timber Harvesting requirements of the Tree Ordinance.

The Following Are Exempt from Permitting; Documentation May Be Requested

- 1. Single Family Residential:** The removal of five (5) or fewer trees less than thirty inches (30") on any single-family residential property, within a single calendar year, unless land disturbance is taking place.
- 2. Private septic system and drainage field:** Documentation from the Board of Health is required noting that exemption is warranted.
- 3. Removal of disease, infestation or hazardous trees:** Documentation from a Certified Arborist and/or state forestry commission required to be eligible for this exemption.

Submittal Procedure for Tree Removal Application:

1. To obtain approval for a Tree Removal Permit, submit three (3) sets of plans and required documents to the Zoning Administrator along with the completed application form.
2. Plans must consist of a to-scale sketch or plat of the property with locations of all trees, accurate DBH and species to be removed. Identify all property lines, structures, driveways, walks on the lot that are adjacent to the tree(s). Property corners must be verified by the owner where trees are near property lines.
3. Refer to the Clayton County Tree Ordinance for complete regulations regarding removal and replacement requirements. Please see Clayton County Transportation and Development for site requirements regarding Clearing, Soil Erosion and Stream Buffers.

Definitions:

- Diameter Breast Height (DBH): The diameter of a tree measured 4.5 feet above the ground
- Hazardous Tree: A tree with defects severe enough to pose danger to people or buildings under normal conditions as determined by the County Arborist or Forester.

See **Tree Ordinance** for complete definitions related to tree removal regulations.
