

Test your
home for

Radon!

Radon is a radioactive gas.

It come from the soil under your house .

Radon is the leading cause of lung cancer for non smokers and the second leading cause of lung cancer for smokers.

Radon is responsible for about 21,000 deaths in the US and 827 deaths in Georgia each year.

Testing is the only way to know the amount of radon in your home .You can prevent and reduce the entry of radon in your home!

Test. Fix. Save a Life!
