

**Table 2-2:
Needs Assessment Evaluation Matrix**

Evaluation Area	Goal Theme						
	Maintain System	Support Land Use/Development	Promote Safety/Security	Improve Connectivity and Accessibility	Enhance Mobility	Support Economic Development	Preserve Environment
Roadway System	Pavement and Bridge Condition; Intelligent Transportation System (ITS) completeness		Crash rate and frequency		Level of service (LOS); Travel time	Freight movement access to employment and economic generators	
Public Transit	C-TRAN operational performance			Population proximity to bus service			
Freight and Intermodal			Railroad crossing exposure	Freight route access		Proximity of industrial areas to interstates	
Pedestrian and Bicycle			Suitability of facilities	Proximity to activity areas (schools, transit, government offices, recreational areas)			Network and gaps
Land Use and Transportation		System adequacy				Ability to support economic generators	
Natural Hazard Preparedness			Ability to evacuate in event of natural disaster
