PRESENTED TO

**Clayton County
Georgia**

For the Fiscal Year Beginning

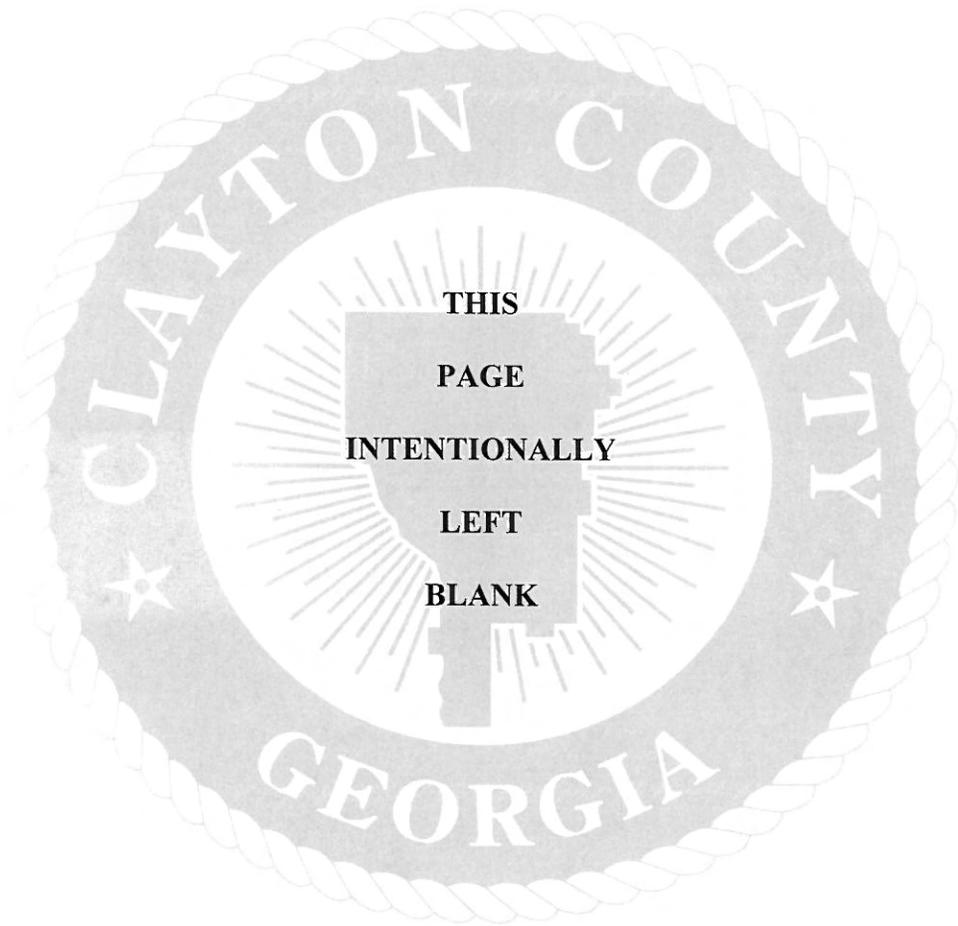

July 1, 2008

President

Executive Director

The Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to Clayton County, Georgia for its annual budget for the fiscal year beginning July 1, 2008. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan and as a communications device.

This award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

Fiscal Year 2010 Budget Message

June 30, 2009

The Honorable Eldrin Bell, Chairman
The Honorable Board of Commissioners and
The Citizens of Clayton County, Georgia

In accordance with state law, the proposed annual operating budget for Clayton County, Georgia for fiscal year ending June 30, 2010 is attached hereto. The budget was advertised as required by law and was adopted on June 30, 2009. The primary purpose of the County's budget and budgetary process is to develop, adopt and implement a fiscally sound and sustainable plan for accomplishing the mission of the Board. Due to difficult economic circumstances felt across the nation, there is a critical need to find a balance between preserving essential services for Clayton County residents while minimizing tax increases on residents.

The Fiscal Year (FY) 2010 general fund budget totals \$176.8 million, an increase of \$8.3 million or 4.9% from the FY 2009 adopted budget. The FY 2010 budget is \$6.7 million above the prior year's amended budget. Increases in the transit system and legal expenses during FY 2009, coupled with declining revenue partially related to the slowing of the real estate market created a financial gap that needed to be addressed in the FY 2010 budget. Following is a summary of the more significant changes by budget type and category.

The Operating Budget

Clayton County, not unlike the nation is facing a difficult economy as reflected in its economic indicators. The collection of County revenues has suffered as a result of the hardships experienced throughout the community and also as a result of federal and state reductions in local funding.

Revenues:

- Property Taxes

Property tax revenue continues to be the most significant revenue source; however, Clayton County is facing the same situation as the nation in regards to stagnant and declining property values. The tax digest for the FY 2010 budget is 3.6% lower than the prior year. The rollback rate is higher in the FY 2010 budget meaning a lower net mill rate applied to a lower digest, if left unchanged would generate even fewer dollars than the current year. To prevent reductions

**Clayton County
Fiscal Year 2010 Budget Message**

in services provided to citizens, the maintenance and operations (M&O) mill rate will be increased by 3.0 mills. The table below shows the impact of the increase of the base millage, the 1% Local Option Sales Tax Credit, the net M&O millage for the General Fund and the taxes generated as a result of the corresponding millage rates.

	FY 2009 Digest	FY 2010 Digest
Net Assessed Digest Value	\$8,566,561,443	\$8,267,511,352
Base Millage	13.453	16.453
Millage Credit 1% LOST Tax	(4.491)	(5.017)
Net Mill Rate	8.962	11.436
Gross Property Tax Levy	\$76,777,694	\$94,547,259
Net Collected @ 95%	\$72,938,809	\$89,819,896

The 1% LOST rebate amount for FY 2010 is \$41,942,199 which is greater than the \$38,468,257 rebated in FY 2009. Therefore, whenever the 1% LOST tax increases over the prior year; it results in a millage credit that is greater than the prior year. The 1% LOST rebate millage for FY 2009 was 4.491 compared to 5.017 for FY 2010. The General Fund and the Fire Fund base millage rates are 16.453 and 3.90. An example tax bill detailing a two year comparison is included on page 46.

- Other taxes and assessments

Other taxes and assessments; which, includes local option sales taxes as its largest category, are projected to be 9% lower than the FY 2009 amended budget. Licenses and permits are projected to be 32% lower than the prior year. Interest income dropped 81% in the current fiscal year.

Due to the challenges facing the County in regards to lower revenue collection, expenses must be lowered comparably to meet projected revenue levels. The FY 2010 budget represents an ongoing commitment from the County to invest in its future and efficiently manage its resources.

Expenses:

- Personnel

The County has implemented a wide range of cost savings strategies in the FY 2010 budget, including a hiring directive which requires approval before vacancies can be posted and filled. Reorganization of various departments and reclassification of some positions transpired to eliminate duplicated services, realign salaries to reflect additional and/or current responsibilities. The net effect was an increase of 8 positions at a cost of \$662,755. Like the FY 2009 budget, the FY 2010 budget does not include any payroll enhancements. The last increase in pay awarded to Clayton County Employees was 2.50% at a cost to the County of \$2,227,208 during the FY 2008 budget. Also included in the FY 2008 budget were reclassifications as researched and recommended by the Personnel Department at a cost of 960,644.

**Clayton County
Fiscal Year 2010 Budget Message**

The Economic Development Department was moved out of the general fund and placed into the Tourism Fund to be paid out of discretionary funds used to promote the County. Approximately \$230,000 was released to be used for other general fund projects.

- *Vehicle Replacement Reserve*
The County has utilized a vehicle replacement reserve account since FY 2006. The value of the reserve for fiscal year 2010 increased to \$1,321,987 and was \$500,000 in fiscal year 2009. Public Safety has been given a directive to purchase vehicles whenever possible from drug funds to save general fund dollars. Vehicles beyond repair or where the repair cost exceeds the value of the vehicle are replaced from the reserve after being evaluated by Fleet Maintenance. Prior to FY 2006, each County vehicle was assigned a score based on a point system which evaluated vehicles based on repair costs, age and mileage. Fiscal Year 2005 was the last year the point system was utilized and \$2,002,000 was spent to replace vehicles.

- *Clayton County Transit System (CTRAN)*
The public transit system is operated under a contract by the Metro Atlanta Rapid Transit Authority. The rate for the contract in addition to expenses incurred by the County department responsible for managing CTRAN has been costing the County approximately \$11 million. The FY 2010 budget includes modifications to services which would reduce the cost by \$2 million.

The Capital Budget

Capital in the FY 2010 budget has been limited to the vehicle replacement reserve and purchases made from 2004 Special Purpose Local Option Sales Tax (SPLOST) collections or the 2009 SPLOST collections.

- *Special Purpose Local Option Sales Tax (2004)*
The old SPLOST as it is commonly known is projected to end December 2008 and will have generated approximated \$260 million dollars in revenue over a five year period of time. Approximately \$200 million was allocated for a Road Infrastructure Improvement Program which included maintenance projects such as resurfacing approximately 556 miles of road, upgrading bridges and culverts, upgrading storm drainage systems in older subdivisions and improving 31 railroad crossings. The road program encompassed various safety projects including installation of 96 miles of sidewalk, improved access and traffic congestion at schools, upgrading the traffic control center, installing additional cameras, fiber optic communication cables and variable message signs, installing school flashers for every school, adding reduced speed zone signs, installing pedestrian crosswalks and improving roadway shoulders. The road program also included road improvement projects consisting of improving 22 intersections, constructing 6 roads, widening 32 roads and paving 8 dirt roads. The old SPLOST generated approximately 60 million over the same five year period to fund construction of needed recreation centers.

Of the broad plan above, the J. Charley Griswell Senior Center, the Virginia Burton Gray Recreation Center and the Carl G. Rhodenizer Recreation Center opened in July 2006, March 2007 and July 2007 respectively. The Clayton County Board of Commissioners in conjunction

Clayton County
Fiscal Year 2010 Budget Message

with the Department of Parks and Recreation is developing a plan for the 4th, 5th and 6th recreation center and construction will begin in FY 2010. Construction is not scheduled for completion until FY 2011 eliminating the need to allocate operating funds from the general fund coffers. The FY 2010 budget also includes \$41 million for various road, bridge, sidewalk, equipment, storm water and traffic signal improvements.

- *Special Purpose Local Option Sales Tax (2009)*

The new SPLOST as it is commonly known is projected to begin generating revenue in January 2009 with collections being deposited in March 2009. The term of the new SPLOST will be 6 years and is estimated to generate \$305 million for County and City projects. The new SPLOST will be distributed among the cities and County based on the formula utilized for the Local Option Sales Tax (LOST). The cities will receive 25.15% in aggregate and the County will receive 74.85%. The formula is used after the cost of the level 1 project (Juvenile Justice Center - \$15 million) has been deducted. The County intends on spending \$217 million on the following projects: (1) Police precincts in the Northeast, Northwest and Southwest areas of the County, (2) Additional police vehicles, (3) Animal Control offices and kennels, (4) Multipurpose Fire Department (training) building , (5) Ladder truck, Fire engines and Ambulances, (6) Expansion of correctional facilities to include a new dormitory, visitation area and medical and holding cells (7) Parks and Recreation Administration /Operations Center, (8) Park upgrades to include green space and trails, (9) Two Senior Centers in the Southwest and Northeast areas of the County, (10) Two libraries in the Northeast and Northwest areas of the County, (11) Countywide public safety digital network design and construction \$23 million (12) County Record Center, (13) a Fueling center and emergency fuel storage location and (14) a continuation of the Road Infrastructure Program which includes maintenance, safety and road improvement projects driven by Transportation and Development.

Construction of the Juvenile Justice Center will begin in FY 2010; however, it will not be complete until FY 2011 alleviating the need for the allocation of general fund operating dollars. The services of a project manager to administer the new SPLOST will be retained. He in conjunction with the Board will determine the timing of projects for the duration of the SPLOST enabling the creation of a capital budget.

Clayton County
Fiscal Year 2010 Budget Message

The Parks and Recreation Fund decreased 19% due partly to the release of a leased park site back to the city for further development. Staffing and programming at the park was done by the County prior to this year. The summer camp program was modified to decrease the number of activities offered and their related field trips.

The Hotel and Motel Tax Fund and the Tourism Authority Fund both decreased by 10% to reflect the decrease in Hotel/Motel stays within the County as a result of the economy and fewer people going on vacation.

The Federal and State Narcotics funds both experienced large increases in the FY 2009 budget, 48.5% and 24.1% respectively, due to large drug busts made during the year. The FY 2010 budget can not anticipate that level of drug activity to be a reoccurring factor.

The Jail Construction and Staffing Fund increased 12% as a result of increasing it to correlate closer with the surcharge received from monies fined in Superior and State Court.

The Drug Abuse Treatment and Education Fund, Alternative Dispute Resolution (ADR) Fund and the Victim Assistance Fund decreased 37%, 14% and 12% respectively, to more accurately reflect their collection of revenues as based on the surcharge received from monies fined in Superior and State Court.

The Domestic Seminars Fund experienced a 14% decline due to the addition of several programs and courts that affect court actions where children are involved.

The State Court Technology Fee Fund decreased due to the addition of digitized courtroom equipment, training and computer assistance in FY 2009 that will not need to be budgeted in FY 2010.

The Clayton Collaborative Fund, the Aging Grant Fund, the Housing and Urban Development Fund, and the Other County Grants Fund all appear to have been reduced for FY 2010; however, those funds are amended in during the year as they are received from state and federal sources. County grant funds are not expected to decrease from past levels.

The Ellenwood TAD special revenue fund as well as the related capital projects fund was created in FY 2009. The current budget reflects a full year of activity.

The Roads and Recreation Project Fund appears to have decreased by 53%; however, funds are amended in as projects and/or sites for construction are identified. Carry-forwards are done during the first quarter of the year to bring forth funds budgeted for projects that could not be completed in the prior year.

SPLOST 2009 began generating revenue in January 2009; however, collections began in March 2009. FY 2010 is the first year of developing a budget for the new SPLOST.

The Debt Service Fund decreased 59% due to the payoff of revenue bonds.

Clayton County
Fiscal Year 2010 Budget Message

The Landfill Enterprise Fund decreased 16% due to the County offering several free programs by which to dispose of garbage to encourage County clean-up and discourage littering.

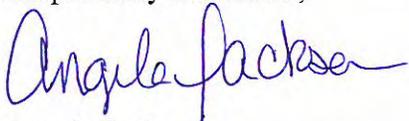

The Airport Fund declined 13% as a reflection of lower revenue collection generated by a decrease in flight activity and fuel sales.

The Public Transit Fund experienced a 25% increase due partially to increased contractual cost with the operator of the system. The increase also involves moving grant funds as well as other related funds into the Public Transit Fund to promote accountability achieved by having all related costs in one cost center.

Detailed information on all facets of the budget can be found within this document. The Introduction provides a brief overview of the County, including the mission and major initiatives. It also contains information on the operating and capital sections of the budget. The Budget Summary Section provides detailed information on revenues, expenses and financing sources, as well as prior and current year comparisons. The Policies and Procedures Section contains intricate information pertaining to Clayton County's strategic plan, budget development guidelines, and fiscal, operating and purchasing policies. The financial impact of capital projects can be found in the Capital Budgeting Section. The Department Summaries section includes detailed information on individual departments.

The FY 2010 budget strikes a critical balance between preserving essential services for County residents and reducing expenditures to meet projected revenue levels. The attached budget includes reductions in expenditures, a small tax increase as well as opportunities for savings. Clayton County continues to maintain a responsive government, comparatively low property taxes, high service levels and a strong financial position. Clayton County's finances remain healthy due to its conservative fiscal policies. The County has a bond rating of Aa3 from Moody's Investors Service, Inc. and AA by Standard & Poor's Rating Services.

History of Clayton County

Clayton County Georgia was created by the Georgia State Legislature on November 10, 1858, and is, therefore, one of the newer counties in Georgia (125th created in the state). Clayton was formed from Henry and Fayette counties. The bill was introduced to the legislature by Colonel James E. Johnson of Fayette County. Originally the county was to be called Butler, for the U.S. senator Andrew P. Butler of South Carolina, but the bill was amended before it passed, and the name was changed to Clayton, in honor of Judge Augustin Smith Clayton, a distinguished Georgia Attorney and U.S. Congressman of Athens, Georgia. Jonesboro became the county seat.

Clayton County is approximately 149 square miles, and is one of the smaller counties in the state in terms of area. It is located 10 miles south of Atlanta. It is bordered on the West by Fayette County, on the South by Spaulding County, on the East by Henry County and on the North by Fulton County. The County's elevation of 1,000 feet above sea level permits an ideal four-season climate. Temperatures average from 45 degrees in January to approximately 80 degrees in July. Clayton County is comprised of six incorporated cities. They are Jonesboro, Morrow, Lovejoy, Lake City, Riverdale and Forest Park.

Jonesboro – The city of Jonesboro incorporated in 1859 and is the fictionalized setting for Margaret Mitchell's "Gone with the Wind" novel. The population in 2000 was 3,829 and the median household income was \$31,951. Jonesboro covers a 2.6 square mile radius.

Morrow – The city of Morrow became a part of Clayton County in 1858 when Clayton was created from parts of Henry and Fayette counties. They were granted a charter to become a city in 1943. The population in 2000 was 4,882 and the median household income was \$46,569. Morrow covers a 2.9 square mile radius.

Lovejoy – The city of Lovejoy has a population of 2,495 and a median household income of \$40,139. Lovejoy covers a 2.3 square mile radius.

Lake City – Lake City has a population of 2,886 and a median household income of \$38,929. It covers a 1.8 square mile radius.

Riverdale – Riverdale is home to Clayton County's only hospital which is also one of the top employers for the county. Riverdale has a population of 12,478, a median household income of \$39,530 and covers a 4.3 square mile radius.

Forest Park – Forest Park is Clayton County's largest municipality and was incorporated in 1908. The population in 2000 was 21,447 and the median household income was \$33,556. It covers 9.4 square miles

INTRODUCTION

History of Clayton County continued

Clayton County's first courthouse was a wooden structure that was burned in 1864 during Sherman's March to the Sea. A new two story brick courthouse was constructed in 1869. It was used until 1898 when it became a Masonic Lodge and it is still utilized as a Lodge today. In 1898 a larger courthouse with a clock tower was constructed a block from the old courthouse. It is referred to as the historic courthouse. In 1962, the need for space led county officials to build a modern addition around the courthouse. In 1998 Clayton County officials authorized the construction of a new Clayton County Judicial Complex. On November 4, 2000, the courthouse staff moved to the new justice complex which consists of 18 courtrooms with isolated and secure inmate circulation and holding cells, judge's quarters, clerks of courts, the Clayton County Sheriff's Office, and a 1,536 bed detention facility. The historic courthouse has been restored and now houses the Registrar's Office, Tax Assessor's Office, Community Development and Economic Development offices.

Old Clayton County courthouse, built in 1869, is located one block north of the historic courthouse. Since 1898, the old courthouse has served as a Masonic lodge.

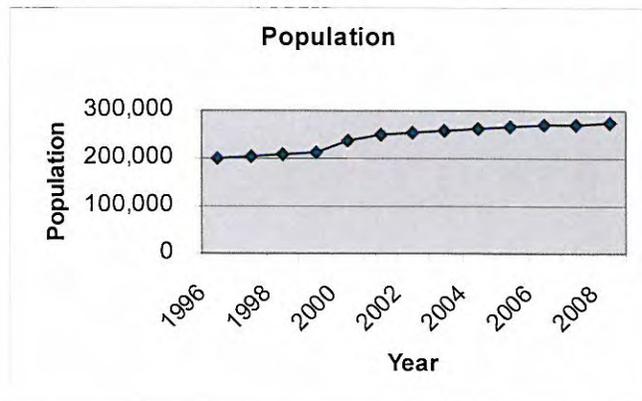

The Historic Courthouse (left) and the Harold R. Banke Justice Center (right) house essential County functions such as; Clerk of Superior/Magistrate Courts, Clerk of State Court, District Attorney's Office, Magistrate Court and Judges, State Court and Judges, Solicitor General's Office, Sheriff's Office, Registrar, Tax Assessor, Community Development, and Economic Development.

The old courthouse was designed by Max V.D. Corput and has an architectural style defined as Vernacular with Italianate influence. The historic courthouse was designed by J.W. Golucke in a Romanesque Revival style. The Harold R. Banke Justice Center was designed by Hellmuth, Obata and Kassabaum, Inc.

INTRODUCTION

Population

Clayton County experienced a dramatic surge in population from 10,260 in 1930 to 150,357 in 1980, making it one of the fastest growing Counties in the state. The close proximity to downtown Atlanta makes it a prime location for commuters to live, shop and attend various activities. The growth continued from 1990 to 2000 with the population growing at a 29.9% rate. The population increased from 236,517 in 2000 to 274,220 in 2009 a growth rate of 15.9% over the last nine years.

Governmental Structure

The governing authority of Clayton County is a Board of Commissioners consisting of four elected commissioners and one elected chairman. The Vice-Chairman designation rotates among commissioners. They serve on a full-time basis and are elected to staggered terms of four years. The Chairman serves as Chief Executive Officer and is responsible for the daily operations of the County. The Board may appoint a Chief of Staff who monitors county operations and ensure that all daily functions are managed in accordance with the policies of the Board of Commissioners. Clayton County is in the 13th and 5th congressional districts, 34th and 44th state senatorial districts, and 60th, 62nd, 74th, 75th, 76th, 77th, and 78th state house districts. Services Provided by Clayton County

The C. Crandle Bray Building houses the Clayton County Police Department, E911, and Emergency Operations.

Clayton County provides a complete range of services to its citizens to include the following: police and fire protection, emergency medical services, public transportation, court systems, library services, highway construction and maintenance, recreational activities and cultural events for youth and senior citizens, refuse collection and disposal, public health services, building inspection, animal control services, and tax assessment and collection services. The County also provides water, sewer and solid waste disposal services through the Clayton County Water Authority. Some of the services highlighted below are: police protection, fire protection, public transit system, health care, education, and lifestyle and entertainment.

The purpose of the Police Department is to enforce the law fairly and firmly, to prevent crime, to pursue and bring to justice those who break the law, to keep the peace, to protect, help and serve the people of Clayton County, and to do all of this with integrity, common sense and sound judgment. The Police Department is a full service law enforcement agency responsible for handling all calls for emergency service in the unincorporated areas of Clayton County. The Clayton County Police Department is housed in a modern 94,000 square foot building constructed in 2004.

That space is shared with Communications and Emergency Management. The new headquarters allows all divisions to be housed in the same building and enables information to flow more accurately, efficiently and effectively among divisions. Communications and Emergency Management occupies 20,000 square feet of the new building. With the constant increase in call volume it became difficult to maintain the older outdated equipment. The current space will accommodate anticipated growth for the next 25 years. Communications receives and dispatches emergency and non-emergency calls. The center is staffed with certified and trained officers and is actively involved in public education and community outreach activities. Emergency Management coordinates the efforts of the county in preparing for major disasters and emergencies.

The primary responsibility of the Fire Department is to respond to medical emergencies, vehicle crashes, natural gas leaks, building fires, vehicle fires, wood/grass fires and natural disasters to protect the citizens of Clayton County. Non-emergency services provided include fire code inspections, building plan review, pre-fire planning for equipment, fire cause and arson investigations. The Fire Department is responsible for 14 fire stations throughout the County.

Due to the continued population growth of Clayton County, Station 14 was opened in August of 2008 to maintain the safety of residents in all areas of the County.

Clayton County residents witnessed the birth of a new transit system called C-Tran on October 1, 2001. C-Tran was much more successful than expected and the number of customers more than doubled initial projections for the first year. The system was expected to carry about 250,000 passengers in the first year but by the end of September 2002, C-Tran had carried approximately 500,000 passengers. The system has 24 buses powered by clean burning compressed natural gas. Bus service operates Monday-Saturday and connects

Clayton County Citizens to many neighborhoods, businesses, shopping centers, medical facilities and cultural opportunities. It also provides access to MARTA, which is the transportation outlet for metro Atlanta. Riders have the capability to connect to all MARTA routes providing cost effective transportation to the citizens of Clayton County. The system also provides para-transit services for physically challenged County residents. During FY 2008, Clayton County entered into an agreement with MARTA to provide maintenance and support services. This agreement will provide Clayton County residents with a seamless link to the entire MARTA transit system.

In the near future the new commuter rail is slated to begin service running through Clayton County. The rail service will connect the southern portion of Georgia to the greater Atlanta area. This service will provide an additional commuting option for many travelers.

The County owns Tara Field; a General Aviation-General Utility airport with one runway 4,503 feet long and can currently serve 170 small to mid-size aircraft with landing, fueling, hangar storage, and aircraft tie downs. The airport was equipped with a weather advisory system in June 2003. The County plans to install an instrument landing system, extended medium intensity runway and taxiway lighting system in the near future. Tara Field provides quick access for General Aviation flyers, to the Greater Atlanta area without the time consuming delays found at most major airports.

Clayton County offers its community some of the best healthcare in metropolitan Atlanta. Southern Regional Medical Center was established in 1971 as a community-based healthcare provider and became a member of the Promina Health System (Georgia's largest non-profit hospital alliance) in 1996. Southern Regional Health System consists of the following: Southern Regional Medical Center, a 406-bed full-service hospital featuring a state of the art outpatient surgery center, one of the busiest emergency departments in the State and includes a Community Care Center; Riverwoods, Southern Regional Psychiatric Center; The Surgery Center at Mt. Zion; Southern Regional Homecare, Medicare and Medicaid certified home health agency and Women's Life Center, a 107,000 square foot, state of the art facility that offers complete obstetrical, gynecological, diagnostic and educational services for women. Southwood Medical Center is one of 10 medical facilities operated by Kaiser Permanente of Georgia, the state's largest non-profit health plan. They provide comprehensive healthcare services to more than 44,000 citizens of Clayton County.

Quality and distinction describe Clayton County's educational institutions, where programs, facilities and faculty produce educated young men and women prepared for college or career. From preschool to 12th grade, the nearly 48,770 students enrolled in the sixty-three Clayton County Public Schools have access to some of the best instructional programs in the country. The school system has 3,427 full and part-time teachers. Nearly 50% of the teaching staff holds advanced degrees, and many have earned achievement awards on state, national and international levels. Clayton County Schools rank among the top in the country for access to technology. Facilities include sophisticated computer networks, technology labs, a fully equipped TV production studio and a 1,800 seat Performing Arts Center. In April 2009, the Clayton County School system was re-certified by the Southern Association of Colleges and Schools.

Clayton College and State University offers a wide range of degrees and career options. The campus supports continuing education for people of all ages and now offers graduate degrees.

Clayton College and State University is the only university in Georgia to offer both academic and vocational degrees. The ever expanding college has over six thousand students preparing for more than forty majors. People are served annually through the second largest continuing education program in Georgia, small business and international business development programs, a mobile computer learning lab and other community outreach programs.

Clayton County offers an active and rewarding lifestyle, which encompasses sports, arts, religious observances, historical events and a community that would rival that of almost any other area in the country. Sports and recreation are important in Clayton County. Children and adults can learn together about the outdoors at the Reynolds Nature Preserve or the Newman Wetlands Center. They can fish at Lake Blalock or Lake Shamrock. League play is a popular pastime each year in swimming, tennis, soccer and baseball. Private and public golf courses are also in the area, including Lake Spivey Golf Club, Eagles Landing Country Club, Rivers Edge Golf Club and The Links. The Clayton County International Park offers sunbathing, swimming, water slides, a tennis complex, a volleyball stadium, a fitness center and seasonal outdoor concerts.

The Clayton County International Park Complex provides a top notch venue for concerts and activities for citizens of all ages. This World Class complex hosted the 1996 Olympic Volleyball games.

The tennis complex opened in August 2003. It is a stadium court surrounded by 16 courts, all lighted for night play, a full service pro shop with world class clothing and shoes, head racquets, racquet stringing, balls and any other tennis related accessories. There are showers and locker rooms, a meeting room and an after school program. The tennis complex is ALTA and USTA certified; all leagues are welcome with prior approval to play in the new complex. The complex offers private lessons, children's programs, adult programs and break point training. A junior academy that works with high school players as well as tournament players is also available at the tennis complex.

Other exciting sporting events include NCAA action at Clayton College & State University and the annual LPGA Chick-Fil-A Charity Championship at Eagles Landing Country Club.

Over 160,000 avid fans attend the NASCAR Winston Cup racing in May and November at the Atlanta Motor Speedway. The speedway also hosts the Atlanta Auto Fair, a showcase of antique, rare and experimental automobiles. Clayton County's close proximity to the city of Atlanta provides citizens with easy access to sporting events such as the Atlanta Braves Baseball, Atlanta Falcons Football, Atlanta Hawks Basketball and Atlanta Thrashers Hockey.

Cultural opportunities are prevalent in Clayton County. Spivey Hall, located on the campus of Clayton State University, is a 400-seat, acoustically-superior performing arts venue that has presented the best in jazz and classical music to the metro Atlanta area since 1991.

The visual centerpiece of Clayton State University's Spivey Hall is the Albert Schweitzer Memorial Pipe Organ, a 79-rank, 3-manual, 4,413-pipe organ, built and installed by Fratelli Ruffatti of Padua, Italy.

Its celebrated concert series receives regular national and international attention as one of America's finest, and the Hall's acoustics and design are routinely lauded by patrons, pundits and performers. Thanks to frequent appearances on National Public Radio's "Performance Today", the hall has earned a national reputation while also reaching an international audience through exposure in such publications as BBC Music magazine and International Arts Manager. The Hall also routinely receives superb accolades from the noted artists it annually presents. The Public Schools' Performing Arts Center provides yet another cultural experience and is one of the largest fully-equipped

National and Global Economic Conditions and Outlook

As part of the ongoing budget process the County continually reviews and monitors economic data at the national level. The sudden decline in economic activity in the second half of 2008 signaled that the current recession, which started in December of 2007, could be severe. The recession was precipitated by a drop in house prices and housing starts, which abruptly undermined the solvency of financial institutions and severely disrupted the functioning of financial markets. A sharp rise in oil prices between early 2007 and the middle of 2008 further debilitated economic activity. Those recessionary pressures were largely offset for a time by strong growth of exports and by government policies that included significant easing of monetary policy and tax rebates during the spring and summer of 2008. By the middle of last year, the growth of output had weakened. By the fall of last year; however, additional turmoil hit financial markets even though policymakers had provided extraordinary amounts of support to the markets in order to contain it. As spending by consumers and businesses weakened, output fell. The price of oil also dropped rapidly late last year; if sustained, lower oil prices will temper the decline in output.

Normally, sharp contractions in economic activity are followed by rapid rebounds; however, it is anticipated that the recovery in 2009 and 2010 will be slow. Although financial conditions are expected to improve, the pace of improvement will be restrained because it will take time for financial institutions to recover from losses due to loan defaults. As a result, borrowers will continue to find the terms and availability of credit tight, which will increase the cost of capital and hold back the growth of investment and consumption, dampening economic activity for a few years.

Similarly, the excess supply of vacant houses is expected to suppress the typical rebound in housing construction next year. Spending also will be muted as households continue to adjust to the large declines in wealth of the past few years. Last, foreign economies will not provide an offsetting boost in demand. Although economic growth overseas remained strong during the housing collapse of 2007 and 2008, providing support to domestic producers, those economies are now weakening and are likely to restrain the recovery.

Spending by state and local governments will mildly ease the downturn in economic activity. In response to lower-than-expected revenues and requirements for balanced budgets, state and local governments are cutting back spending on goods and services.

A major source of uncertainty in this outlook is the degree and persistence of turmoil in financial markets and the resulting impact on the future course of the economy. It is possible that the extensive support that the Federal Reserve and the Department of the Treasury have provided to banks and other financial institutions and have promised to continue to provide will soon restore a measure of confidence that will permit a rapid rebound in economic activity. Alternatively, greater declines in house prices may generate further losses on mortgage-backed securities. Because institutions' direct and indirect exposure to those securities is still not clear, banks may remain unwilling to lend to one another or to other non-financial customers, making it difficult for many households and businesses to obtain financing. Furthermore, foreign lenders, who have recently been willing to lend to the U.S. government on very advantageous terms, may become less willing to do so in the future, which would tend to raise interest rates and dampen economic activity.

Local Economic Conditions and Outlook

Clayton County has not been immune to the economic downturn impacting the entire country. Despite the proximity to Hartsfield-Jackson Airport, the local economy and nearly all of the major industries have shared in the downturn of the latest economic slump. Clayton County had enjoyed a period of residential and business growth resulting from its close proximity to the Hartsfield-Jackson Airport, and the downtown Atlanta business center. Clayton County's position as the business center of the Metro South region had created growth in such industries as transportation, logistics, retail, hospitality and healthcare. The current economic downturn has impacted the County and its diverse businesses.

The nationwide housing slump began to impact Clayton County during 2008. Sales of new and existing homes began to drop. The local foreclosure rate began to increase as the nationwide housing slump began to directly impact the County. This decrease coupled with tighter credit markets nationwide resulted in an overall decrease in the strength of the local housing market. Clayton County has realized the impact of the increase in foreclosures in the greater Atlanta area. During 2009, the County received a \$9,700,000 NSP Grant from HUD to help rehabilitate housing in the County neighborhoods most impacted by foreclosures.

Job growth and job creation are essential components for a successful local economy. Clayton County has aggressively targeted new jobs to provide an ever expanding economic base for the community. During 2009, Clayton County saw the employment base expand with the addition of several new employers. QT Foods opened a new food processing facility in the Ellenwood area resulting in the addition of 227 new jobs to Clayton County. In addition, Gulf Coast Pre-Stress Concrete opened a new facility in the Morrow area resulting in the addition of 60 new jobs to the County. Construction is under way for a new Comfort Suites which will provide an additional 45 jobs to the County when complete.

The top employers and top taxpayers for Clayton County serve many industries and are detailed below:

Local Economic Conditions and Outlook continued

Delta has historically been the County's top employer as well as one of the top taxpayers and as a result has a large financial impact on the County. The Delta Northwest Air merger proposed in 2008, was completed during FY 2009. The impact to the County has been positive with additional flights and support services being relocated to Hartsfield-Jackson Atlanta International Airport. As a result in April 2009, Delta announced the hiring of an additional 500 employees needed to support the ever expanding operations resulting from the recently completed merger with Northwest.

The primary local economic driver of the community is Hartsfield-Jackson Atlanta International Airport, supplying thousands of jobs, tax revenues and international trade resources that have shaped Clayton County for many years. It consistently ranks as the world's second largest cargo facility and country's busiest airport, serving a record 90 million passengers in 2008. Hartsfield-Jackson Atlanta International Airport opened a fifth runway in 2006 and it is making an improvement in flight delays and saving airlines fuel costs by reducing taxi times.

During FY 2009 the Clayton County Board of Commissioners established a Tax Allocation District in the area surrounding the Jackson-Hartsfield Airport to support and promote growth in the area adjacent to the airport. The County will utilize this powerful development tool to focus on rebuilding the area around the Hartsfield-Jackson Airport.

Historically, there has been a correlation between the health of the local and national economy and the level of spending by consumers with local businesses in the County. Since many of the primary revenue sources for the County result from sales of goods in the area, these revenue sources at least in part are a reflection of the drop in consumer spending that has impacted the economy nationwide. As with many local counties the sales tax revenues have decreased revealing that local consumers are holding back on spending. As costs increase for items such as gas and food citizens are cutting back on purchases relating to home improvement and entertainment.

In conclusion, Clayton County continues to foster an environment which is conducive to new and existing employers in order to keep the unemployment rate down. Skilled and educated employees are readily available for businesses that have decided to set up operations within the County. The County is providing an environment and must continue to have the foresight to budget conservatively to endure times such as these while still providing citizens with quality services and programs.

The budget for FY 2010 was prepared after careful consideration of many difficult challenges, including finding the proper balance between maintenance of existing taxpayer services versus taxpayer increases, repair and maintenance on roads, bridges, buildings and equipment, and the employee compensation package. The economy's downturn has made existing challenges even more difficult.

The most important assets of Clayton County are its citizens; therefore, taxpayers should have access to governmental and judicial services. Several of the County's departments are enhancing their websites with forms that can be completed online and fees that can be paid online. Currently, there are several forms for the Clerk of Superior/Magistrate Courts available online. The forms include case initiation forms, witness subpoenas, disposition forms, case-filing information forms

Modern up to date courthouse facilities provide the Citizens of Clayton County with a state of the art venue for legal proceedings.

and summons forms. They have also included forms for the real estate division, to include applications to become a notary, passport applications and trade name applications. The Clerk of Superior/Magistrate Courts is continuously working to increase the number of services provided online to decrease the amount of time Clayton County Citizens spend traveling to the Harold R. Banke Justice Center. The next hurdle for the Clerk is to enable the citizens to electronically file and pay civil actions (i.e. divorce and domestic petitions) online. It would also be a tremendous accomplishment if evictions and abandonment of motor vehicles could be filed online due to the large numbers brought in by some consumers.

Clayton County also holds as a top priority the protection of its citizens. The Sheriff's duties include, but are not limited to operating the County jail, issuing warrants, providing courthouse security and operating the work release program. The County jail is a 1,536-bed facility. The Police Department's duties include criminal investigations, traffic patrol, SWAT team operation and a helicopter unit.

Repair and maintenance on roads and bridges is a necessity that most citizens don't consider until an unfortunate accident occurs. Clayton County attempts to avoid those types of incidents by taking preventative measures to keep roads and bridges operational. Currently some of the bridges in the County are not able to sustain the weight of school buses. Although the cost to repair a bridge is substantial, it is definitely a major priority in this year's budget to repair weak bridges because it endangers the lives of Clayton County Citizens. As new residents continue to move into the County, they bring with them an immediate impact on traffic flows. With each additional vehicle on

the road, the potential for problems to develop increases as traffic counts begin to exceed existing road design capacities and intersections become overcrowded. For that reason, one of the priorities for the Transportation and Development Department is to monitor intersections and add traffic lights where necessary and to also repair and maintain the integrity of the County's roads. The County has designated approximately \$41 million in SPLOST to road maintenance, safety and improvement projects in the FY 2010 budget.

Employees are recognized by the Board of Commissioners for their years of service to the citizens of Clayton County.

Employees are also an important component to Clayton County. They are responsible for providing essential services to the citizens in a timely, efficient and productive manner. The 2010 budget does not include any merit or cost of living pay increases for County employees. Personnel benefits are also considered to be a part of the compensation package. Fringe benefit projections are based on the approved positions within each department. The budget for the County and Employees portion of group insurance, are based on the new June 30, 2009 rates.

The Risk Management and Insurance budget is based on continuing the present HMO Plan insured by Kaiser Permanente, and the present self-funded PPO Plan administered by Core Administrative Services. Also the County Self-Funded Dental Plan administered by Core Administrative Services is included in this budget.

Due to the continuous population growth in Clayton County, there is a need for additional services in new areas due to a shift and an increase in population. Quality of life remains stable when citizens have a stake in their community. One of the goals of Clayton County is to provide services and venues that will keep citizens and their children active and involved. Currently Clayton County has 670 acres of park land; which breaks down into 35 parks, 70 athletic fields, 29 tennis courts, 3 community centers, 13 playgrounds, 17 picnic areas, 1 nature preserve, 3 senior centers, 1 swimming pool, 1 natatorium and 2 fishing ponds.

Senior adult recreation is essential for many of Clayton County's active older citizens. Senior adult centers offer a variety of leisure services for seniors age 55 and older. The J Charley Griswell Senior Center located on the East side of the County opened during the first quarter of FY 2007. It is a 30,000 square foot facility which includes a cafeteria, dining room, training kitchen, fitness room (weight machines), physical recreation room (aerobics, tai chi, and yoga), billiards room, ceramics classroom, arts and crafts classroom, an indoor swimming pool and full service locker rooms.

The J Charley Griswell Senior Center located in Jonesboro will provide a center for the ever increasing senior population in Clayton County. The many amenities and affordable housing makes Clayton County an attractive retirement location.

The center will also host classes in computer technology, writing and various other artistic disciplines. Senior citizens will meet for many other activities and trips. They will have water aerobics and other programs available for sign-up. Senior centers are necessary to protect the quality of life for Clayton County's active older people. The need for another center arose because of the increasing number of senior citizens and a desire to reduce the distance seniors need to travel to reach a center.

Clayton County is so committed to providing the best services for seniors that during 2009 the Board of Commissioners created a new functional area dedicated to Senior Services. The Senior Services Division will provide specific focus on the ever growing senior population of Clayton County.

The youth of Clayton County are an important part of the fiber of the local community. The Clayton County Board of Commissioners has long been committed to providing safe and modern recreation facilities for the youth of Clayton County to enjoy. The Steve Lunquist Natatorium and Jim Huie Recreation Center opened in spring 2006, and provides state of the art facilities for both competitive and novice swimmers. Citizens of all ages can come and for a small fee, lap swim, sign up for swim classes, enjoy water aerobics and/or participate in various swim competitions. It has stadium seating to enable audiences to enjoy the competitions. There are full service locker rooms equipped with showers and bathrooms.

The new Steve Lunquist Aquatic Center opened to citizens in spring 2006. The multi-purpose Center will serve as a focal point for youth involvement as well as provide all citizens with a place to enjoy a variety of sports activities.

During budget year 2007 the county added a new recreation center to the Ellenwood area. The Carl Rhoedener Recreation Center was opened in July 2007 and provides another state of the art recreation center to serve citizens of Clayton County. The center offers a wide array of activities geared toward the needs of citizens of all ages. Programs include water aerobics, swimming, basketball, and many types of exercise classes.

BUDGET SUMMARY INFORMATION – EXPENDITURES COMPARISON OF
ADOPTED BUDGET WITH PRIOR YEAR’S DATA

The Budget Summary Information contained on the following three pages compares FY 2010 and FY 2009. As a means of providing additional detail to the preceding consolidated overview of expenditures, this comparison of appropriations is provided at the next lowest level of aggregated budget information (i.e., total departmental or cost center budget). For an even more detailed breakdown of each department’s budget or to obtain an explanation of the major changes that have occurred between the two fiscal years, please refer to the individual cost center data shown later in this document in its corresponding functional area.

The first column shows actual data for FY 2008 and the second and third columns are included to show the dynamics of an annual operating budget. The second column contains the original budget that was adopted by the Board of Commissioners for each department at this time last year. When the budget was originally approved, those amounts represented our best estimates as to what it would cost to operate each of the various functions of the County during FY 2009.

Of particular note is that certain budgets were adjusted during the course of FY 2009. The initial expenditure plan was changed throughout the year as unanticipated events occurred, funding priorities changed, or new programs were initiated. These changes are shown in the third column, which depicts the adjusted FY 2009 budget amounts at the point in time when the Finance Department began preparing the recommended budget in May of the current year.

The decision to begin certain road improvement projects, and the decision to construct several recreation centers are representative of the types of budgetary increases exhibited for FY 2009. Transfers from the fund balance, recognition of prior year designations (carry-forwards), and encumbrances are also major factors. Donated monies for many projects sometimes have a life that carries them from fiscal year to fiscal year. These monies are amended into the budget and increase the budget since they are recognized in multiple fiscal years. Monies for grants and capital projects are budgeted in their respective funds. These monies are also carried forward until the individual projects are completed.

In comparing the FY 2010 and 2009 budget information, there are several factors and events to be considered. One of the major decreases involves the amount budgeted in the General Fund. The General Fund increase of \$6,714,661 includes a 3 mil tax increase approved by the Board of Commissioners in order to fund Public Safety needs and County wide services at current levels.

CLAYTON COUNTY, GEORGIA
ANALYSIS OF MAJOR REVENUE SOURCES AND TRENDS

Strategies Utilized in Budgeting Revenues

The Finance and Administrative staff uses a conservative approach in estimating fiscal year revenues. The reason for this conservative approach to estimating revenue inflows is to ensure that the County avoids as much as possible, any significant revenue shortfalls that might occur. A major principal in preparing the operating budget is to hold levels of spending to prioritized needs. With this in mind, revenues are budgeted such that total inflows equal total outflows using the fund balance as the contingency. Great thought and consideration is given to the expense side of the budget before revenue forecasts are ever reviewed. Economic data and analysis is used to help the County gain insight into the prospects for future growth. The expectation of the County with respect to revenue forecasting is to maintain an adequate fund balance while providing necessary services to the taxpayers.

As an integral first step in the FY 2010 revenue projection process, total tax revenue collections through the end of FY 2009 are estimated. Also, a history of the past 3 fiscal years of tax digest growth is examined. Other revenues such as the Local Option Sales Tax (LOST), fines, fees, service charges, and other revenues are considered on a line-by-line basis, again looking at a 3 year history of their performance.

With this information, a review of the current digest with the Tax Assessor's office provides the final details to the Finance staff of expected future digest growth for the next fiscal year. Also, any increases in user fees or charges, changes in service delivery, and the anticipated impact of any new State or Federal legislation are factored into the projections. To provide for the new millage that will be assessed, a calculation is performed to determine the amount of expected tax revenue, taking into consideration the dollar amount of LOST rollback. The goal of the process is to produce a revenue estimate that the County can reasonably expect to meet during the upcoming fiscal year.

In summary several techniques are used to estimate revenues to include trend analysis, expert judgment, the requirements approach, as well as the correlation method. The type of revenue dictates the procedure. Some revenues have more components that may be analyzed such as property tax revenues or local option sales tax revenue versus other revenues that are a little more difficult to forecast such as drug forfeitures or gifts and donations.

General Fund

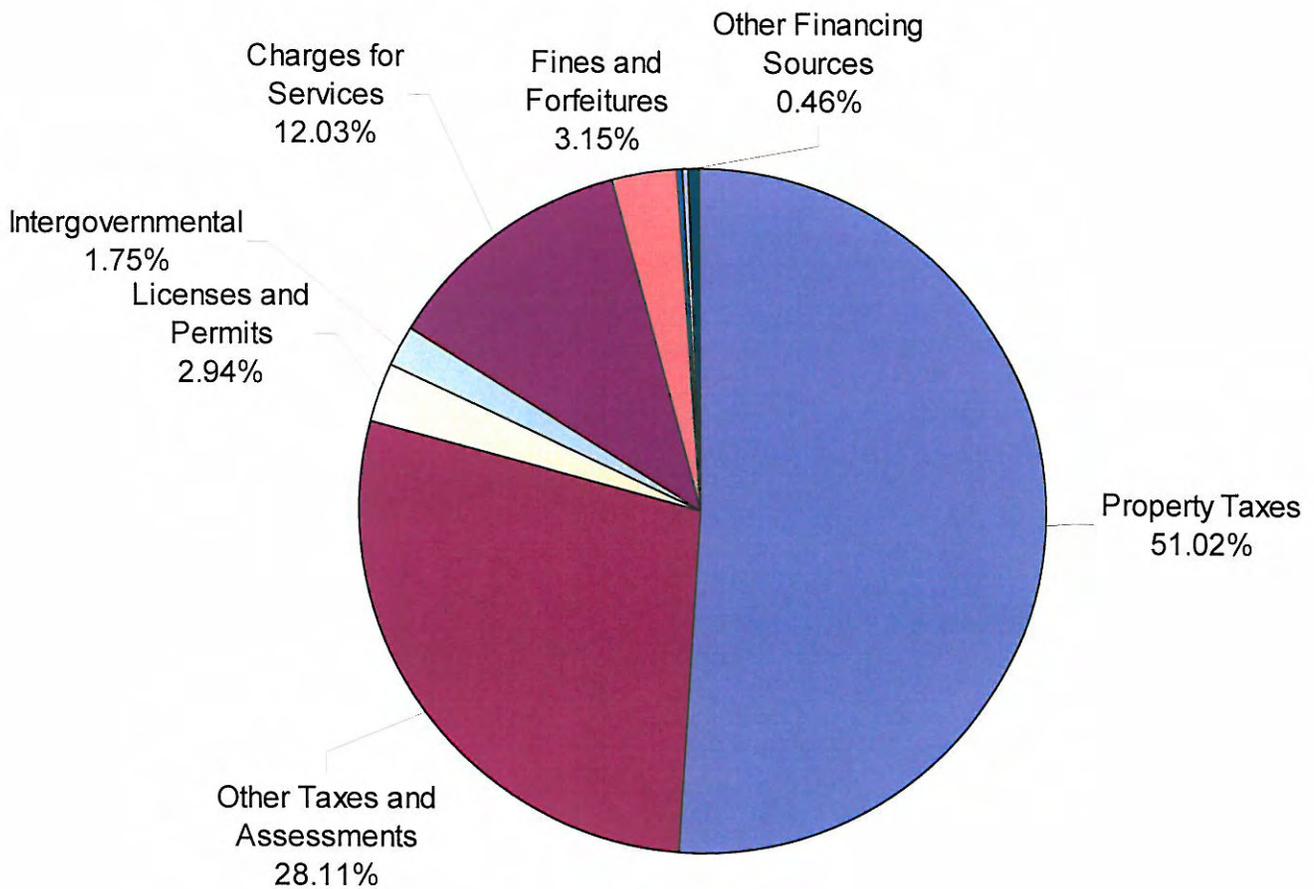

The General Fund is the principal operating fund for the County. The revenue it uses provides a number of services to the citizens. This revenue is derived from a wide variety of sources. The tabular information shown on the next page indicates the relative composition of the major revenue sources. The accompanying pie chart indicates the dependency of the County on taxes as the major revenue source to pay for operations of the General Fund. Almost seventy-seven percent of the General Fund revenues for FY 2010 will be derived from only two sources: ad valorem (i.e., real and personal property), and sales and use taxes. The next largest category of revenue is charges for services which accounts for 12.03% of revenue in the General Fund. This revenue source has increased 24.5% since 2007. The remaining revenue sources are all less substantial in nature.

In comparison to the previous fiscal year, it is anticipated that the General Fund revenues for FY 2010 will decline. More specifically, collection of the General Fund's major revenue source, property tax, is projected to remain flat or decrease for the next several years as a result of home values in the County being affected by the housing slump.

Property Taxes

When comparing annual increases in real and personal property tax revenues, shown in the preceding table, several issues have to be considered. The amount of real and personal property tax collected is an arithmetic function of the County's net tax digest multiplied by a mill rate. The State of Georgia requires that all property be reassessed at least every three years. The increase in the digest is typically more significant in those years when the fair market values of existing property have been updated. As shown in the following tabular information, the 2001 calendar year net taxable digest, which represents a reassessment year, increased 11 percent over the previous year.

It is very important to understand cyclical trends in the digest. Over the past four years the average increase in the tax digest was 4.2%. The following chart and table summarizes some of the relevant property tax data over the most recent ten-year period and the assumptions for the property tax projections for the 2010 fiscal year.

CLAYTON COUNTY, GEORGIA
ANALYSIS OF MAJOR REVENUE SOURCES AND TRENDS

Based on historical information, the staff anticipates that the net tax digest for the current calendar year 2010 will decrease approximately 3.50 percent. This is based on a detailed review of the number and amount of reassessment notices and appeals projected. Clayton County has a number of very large taxpayers that can change the collection rate of the levy rather significantly if they all appeal their assessment notices. With this information in mind, a conservative estimate of the final net tax digest has been estimated and a mill rate set so that the County can operate effectively in FY 2010.

It is the goal of the Board of Commissioners to keep property taxes as low as possible; the preceding table demonstrates the Board's willingness to reduce taxes when able. By factoring the mill rate to compensate for the impact of reassessments and the L.O.S.T., the average amount of property taxes paid by the average homeowner into the County's General Fund remains fairly constant and one of the lowest in the State of Georgia.

Real and Personal Property Tax revenues account for over one-third of the total financial resource inflows into the General Fund, with the L.O.S.T. accounting for another 24.1 percent of tax revenue. This stable and relatively inelastic source of revenue is computed as the arithmetic function of the net assessed value of taxable property and the mill rate. The assessed value is calculated as 40 percent of the property's fair market value. The current State of Georgia statutes require that the fair market value of property be determined as of January 1 of the tax year. Before applying the mill rate, the assessed value is further reduced by any applicable property exemptions (e.g., homestead, disabled veteran.) A mill for tax purposes is defined as \$1.00 for each thousand dollars of assessed value

Other Taxes and Assessments

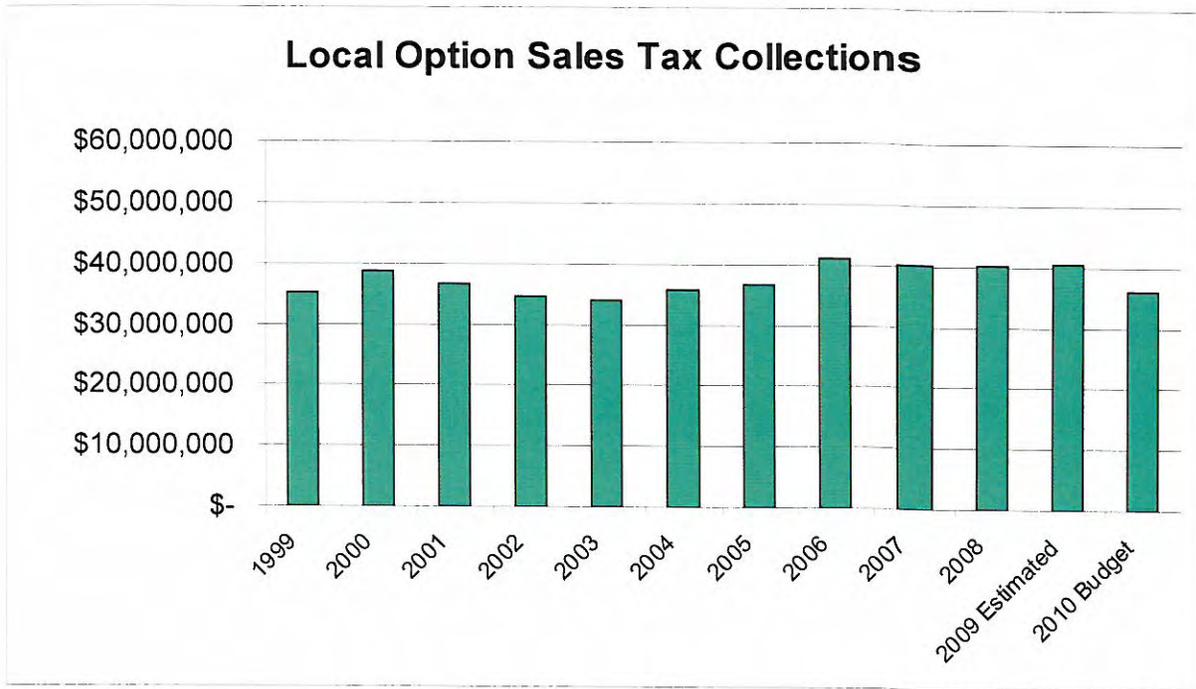

The revenue projections for FY 2010 are based on the assumption that the mill rate for the Maintenance and Operations (M&O) will decrease slightly, based on changes in the General Fund base millage and the fluctuations of the LOST rollback. As in previous years, the revenue estimate includes a factor of 5 percent to cover those taxes that are billed but uncollected in the year levied. The County has historically collected at least 95 percent within the current fiscal year of the current year's tax levy.

The primary component of the Other Taxes and Assessments category is the 1% Local Option Sales Tax (L.O.S.T.). Other items in this category are the Insurance Premium Tax, Real Estate Transfer Taxes, Alcohol Sales and Excise Taxes, and other accounts associated with the collection of taxes. The L.O.S.T. represents 72.4 percent and the Insurance Premium 19.1 percent of Other Taxes and Assessments budgeted for FY 2010. Representing a slight increase as a percentage of revenues as in the prior year's budget, the sales tax and insurance premium continue to be an important component of the County's revenues. In contrast to the property tax, one benefit of the L.O.S.T. is that this revenue source has a cash flow that is fairly consistent over the entire twelve months of the year.

On the downside, the L.O.S.T. revenue source is considered to be extremely elastic, with collections being heavily dependent on the prevailing local economic conditions. Retail sales continue to be slower than usual and most likely will not rebound until such time that the national economy as a whole improves.

From a budgetary standpoint, the estimation of sales and use tax revenues for FY 2009 using historical data is difficult at best. Because of operational, data collection, and reporting problems experienced by the State of Georgia Department of Revenue during the past few fiscal years, the revenue flows from this source have provided a low level of predictability. Revenue collections in FY 2006 reached a high of \$40.9 million. The 2010 budget amount for L.O.S.T. is \$36.0 million. In trying to extrapolate a trend line there is no way of ascertaining precisely the effect that is attributable to the Georgia Department of Revenue's efforts to reduce a backlog of filings from previous periods.

**CLAYTON COUNTY, GEORGIA
ANALYSIS OF MAJOR REVENUE SOURCES AND TRENDS**

As can be seen in the chart above, this particular revenue source has a rather elastic quality and fluctuates up or down according to the prevailing economic conditions. The staff estimates that there is a good possibility that the local economy will remain in a downturn throughout FY 2010. This is why the budget, in an effort to be conservative, will remain lower than last year's collection level for this revenue source. The County's goal is to maintain this reserve at the current years rebate amount. Currently, the reserve is under funded, but with an upturn in the economy this situation will be remedied.

Charges for Services

The third largest revenue source for the County is the collection of fees for services rendered. This revenue component is 12.03 percent of the total General Fund revenue budget. There are 64 line item revenue accounts that are accounted for in this classification. These items include; ambulance fees, commissions on ad valorem taxes, refuse control pickup fees, rental income, telephone commission income, and Sheriff's service fees. These items are generally budgeted at a level of the prior year's actual collections unless some additional information or State of Georgia statute changes are in effect.

CLAYTON COUNTY, GEORGIA
ANALYSIS OF MAJOR REVENUE SOURCES AND TRENDS

Licenses and Permits

This revenue source accounts for the various permits and licenses that the County sells. This revenue component is about 2.94 percent of the total revenue budget. There are 14 line item revenue accounts in this classification. These items include business licenses, building permits, marriage licenses, and pistol permits. These items are generally budgeted at a level of the prior year's actual collections unless some additional information or State of Georgia statute changes are in effect. This revenue source has decreased as a result of the significant drop off in building permits.

Fines and Forfeitures

This revenue source is primarily generated by the Superior, State, Magistrate, Probate and Juvenile Courts. There is also some revenue from false alarm fines and library fines included in this category. Fines and Forfeitures comprise about 3.15 percent of total County revenues. Estimates for these items are based primarily on historical collection patterns.

Other Financing Sources

This revenue source is primarily Inter-fund transfers to the General Fund. There is also some revenue from sales of fixed assets and surplus materials. Appropriation from fund balance is occasionally used as a revenue source and can best be described as an appropriation from the General Fund reserve account. This is a budgetary account only and is used when unexpected expenditures arise that can not be funded by any other revenue source due to the size or nature of the expenditure.

Intergovernmental

This revenue source is generated by revenue received from other Local, State, and Federal governments. This revenue source is payment for services provided to/from any of the prior mentioned governments, grant awards, salary reimbursements, or inmate housing. Intergovernmental revenues comprise about 1.75 percent of total County revenues. These items are generally budgeted at a level of the prior year's actual collections unless some additional information or Federal or State statute changes are in effect.

CLAYTON COUNTY, GEORGIA
ANALYSIS OF MAJOR REVENUE SOURCES AND TRENDS

Interest and Dividend Income

Interest income generated on the County's idle cash balances represents approximately one percent of total revenues. The amount budgeted for FY 2010 represents a decrease over the prior fiscal year. One of the principal reasons for this is the staff's belief that interest rates which have fallen steadily over the past 12 months will result in a decrease in the rates the County will receive for investing its idle cash. There is however also the possibility that as the County uses its cash reserves to cover operating expenses until the property tax revenue comes are received, there will be declining cash balances available for investment and interest earnings.

Other Revenues

As a basic guideline, the remaining component included in the Other Revenues category is budgeted at a level consistent with the prior year's collections. This component comprises less than one percent of the total budgeted revenues.

Other Funds

In addition to the General Fund, four other funds provide significant revenue for the overall County operations. They are the Fire District Fund, the Emergency Telephone System Fund, the Landfill Enterprise Fund, and the Airport Enterprise Fund. Principal revenue sources for each of these funds are provided in the following sections.

Fire District Fund

The Fire District Fund provides funding for the fire prevention and suppression activities for all unincorporated areas of the County except for the cities, which have decided to maintain their own fire departments. To provide a funding mechanism that will ensure that only those individuals living in the area receiving these fire services pay for the services, a special tax district was created. Generally accepted accounting principals require that these legally restricted monies be accounted for separately. This special revenue fund is used to provide accountability for revenues collected and expenditures made for the provision of fire services in the unincorporated areas of the County.

The table and chart on the pages following discussion, indicate the principal revenue sources and their relative contributions to total revenues. The data demonstrates the Fire District Fund's dependence on property taxes to pay for the delivery of this particular service. Ninety six percent of the total revenues for this fund are generated from the taxation of real and personal property. Thus, the revenue for the Fire District Fund has remained some what stable even during this economic downturn.

CLAYTON COUNTY, GEORGIA
ANALYSIS OF MAJOR REVENUE SOURCES AND TRENDS

Fire District Fund (continued)

A major factor adversely impacting the revenues of this special revenue fund is the annexation of property. Any property that the cities annex is removed from the special tax district digest that funds the Fire Services function. Much of the property being annexed is commercial or potential commercial sites that generally represent those parcels having higher fair market values. This process of selective attrition results in the tax digest for the Fire District Fund having an even higher concentration of residential property in its make-up.

The Fire District millage will remain a net 3.90 mills. Over the course of the last 9 years the Fire District Fund has been able to accumulate a capital improvement reserve for renovating and building a number of new stations to meeting the county's growing needs.

Emergency Telephone System Fund

The Emergency Telephone System Fund (E-911) budget is funded by monthly 911 service charges to each exchange subscribed to by telephone subscribers, and by law these funds may only be used to pay for emergency 911 system services. Georgia state law provides for a governmental entity to adopt up to a \$1.50 monthly surcharge for each telephone receiving service in the County. The monies are collected by the individual local service provider, as part of each month's phone bill, and then remitted to the County, less a percentage, to cover the billing party's administrative costs. The proceeds from this surcharge can only be spent for the provision of 911 services within the jurisdiction. While E911 service charges are remaining relatively flat, the Wireless 911 Surcharge is increasing due to the expanding use of cellular phones. From a historical perspective, this revenue source has exceeded the revenue provided from traditional land lines. As is true with other funds, the projection of revenue from this source is conservative. In FY 2009 the Georgia General Assembly has approved a measure to enact an E-911 surcharge on internet based phone systems. This change will result in the increase of E-911 revenues as many local residents are seeking phone plans with lower monthly fees. The table and chart following this discussion, indicate the major revenue sources for this fund.

Landfill Enterprise Fund

The Landfill Enterprise Fund accounts for the total cost of operating the County Landfill under the mandates established under the Georgia Comprehensive Solid Waste Management Act. Revenues for the Landfill Enterprise Fund are from tipping fees assessed for each ton of refuse dumped at the landfill. During FY 2009 the tonnage dumped in the Landfill has decreased as a result of lower construction activity in the County. The tipping fees are based on a rate of \$40.00 per ton. No property tax dollars are budgeted to fund the Landfill Enterprise Fund. The table and chart following this discussion, indicates the major revenue sources for this fund.

Clayton Airport Enterprise Fund

The Clayton Airport Enterprise Fund accounts for the cost of operating the County's airport. The original purchase of this airport was funded through Federal Aviation Administration grants. Major revenues for the Clayton Airport Enterprise Fund are from landing, storage, and fueling service fees. No property tax dollars are budgeted to fund the Airport Enterprise Fund. The table and chart following this discussion, indicate the major revenue sources for this fund.

Consolidated Revenues

The tabular information below provides a consolidated look at the revenue comparisons for all budgeted funds. It clearly demonstrates that the County staff is adhering to its strategy of conservatively projecting revenues.

Revenues appear to be projected substantially less in FY 2010 versus prior years. General fund revenues are expected to increase as a result of the 3 mil tax increase. It should be noted that 58.3% total budgeted revenues involve tax supported funds (i.e., General Fund and the Fire District Fund) up from 49.4% last year. The remaining funds derive their revenue from such non-tax sources as surcharges, fines, user fees, and interest income.

CLAYTON COUNTY, GEORGIA
ANALYSIS OF THE FUND BALANCE OF EACH INDIVIDUAL FUND

Discussion of Fund Balance

The 1994 edition of Governmental Accounting, Auditing, and Financial Reporting (GAAFR) published by the Government Finance Officers Association (GFOA) defines the term *fund balance* as “the difference between fund assets and fund liabilities of governmental and similar trust funds”. In simple terms, the fund balance is the excess of current assets over current liabilities utilizing the flow of current financial resources measurement focus and the modified accrual basis of accounting. In layman’s terms, it might best be described as funds or idle cash that can serve as a financial safety net in the event of a “rainy day” or unexpected expenditures, and can be used to liquidate existing long-term liabilities, or can be utilized to pay for expenditures incurred in future periods.

The size of this balance in relationship to budgeted appropriations provides some insight into the level of current financial resources that are available to meet the financial obligations of future periods. The Board of Commissioners is charged under law to provide for certain expenditures and must maintain adequate reserves to enable these obligations to be discharged. By having sufficient cash reserves available, it ensures a great deal of flexibility in carrying out the County’s annual expenditure plan as well as providing the fiscal capacity to meet most unanticipated needs. For these reasons, maintaining an adequate fund balance level is an important element in the long-range financial plan for Clayton County.

Of primary importance in funding the County’s normal day-to-day operations, the fund balance is used to provide needed cash reserves prior to the collection of taxes. With the fiscal year beginning the first of July and the majority of property taxes not being collected until the middle of December, expenditures or cash outflows significantly exceed revenues or cash inflows over the first five months of the fiscal year. Having sufficient cash reserves prevents the County from short-term borrowing to meet those financial obligations incurred early in the year. And also on the positive side, these funds generate interest income that in effect reduces the tax burden, by as much as one mill in some years, on the citizens.

Lastly, the fund balance provides a financial cushion that can be used to reduce the impact of a significant economic downturn or uninsured catastrophic loss. In situations such as these, the fund balance provides financial resources that can be used to supplant lost revenues or fund unanticipated expenditures without having to raise taxes or incur new debt. In the past 3 years Clayton County has felt the impact of the downturn in the economy. Due to the conservative fiscal policy of the Board of Commissioners in maintaining an adequate fund balance, the County has been able to weather the storm with minimal impact to operations. It is for this reason that the maintenance of the fund balance at approximately 10% of operating revenue is critical to the long-term stability of Clayton County and ensures significant benefits to the taxpayers.

CLAYTON COUNTY, GEORGIA
ANALYSIS OF THE FUND BALANCE OF EACH INDIVIDUAL FUND

General Fund

The following table provides a comparison of the fund balance for the General Fund over a four-year period. At the end of FY 2009, the Finance Department estimates that the fund balance will be about \$29.5 million. Clayton County is in the enviable position of having sufficient monies available to meet its cash flow shortfall, during the early part of its fiscal cycle and still be able to pay for certain of its capital improvement projects without having to issue new debt. Adhering to the policies of fiscal conservatism is part of the reason that the County's current general obligation bond rating is Aa2 (on watch list) by Moody's Investors Service, Inc. and AA by Standard & Poor's Ratings Services.

But more importantly from a strategic standpoint of funding needed services, this size fund balance provides the County with budgetary flexibility during difficult times. Services in Clayton County have remained at constant levels throughout the past fiscal years.

Increases to the fund balance that typically occur from one year to the next come primarily from two sources. First, revenues are projected on a fairly conservative basis each fiscal year as well as the fact that the economy has begun a slow recovery. As a result, the County has ended each of these fiscal years with actual revenues easily exceeding the amount that was budgeted. The second component of fund balance growth has been on the expenditure side. Expenditures as a general rule are very rigidly scrutinized and are kept to a minimum level. The budget is prepared each year on a zero base. This means that departments must justify all expenditures. This process works very well for Clayton County and has helped maintain tight controls on spending. The General Fund uses the modified accrual basis of accounting for both budgeting and actual reporting purposes.

CLAYTON COUNTY, GEORGIA
ANALYSIS OF THE FUND BALANCE OF EACH INDIVIDUAL FUND

The following tabular information breaks the estimated fund balance at June 30, 2009 into some of the various components discussed earlier in this section. As indicated by the General Fund reserve, the Board has adopted as a fiscal policy, the Finance Department's recommendation that the County maintain a cash reserve equal to the L.O.S.T. rebate. Another reserve represents outstanding purchase orders and projects that were budgeted for FY 2009, but will not be completed until FY 2010. The third reservation of fund balance is for inventory carry forward from one fiscal year to the next. And lastly, there is a reserve for prepaid assets that represents an offset to the current asset balance for the prepayment of insurance premiums and other prepayments of goods and services that has a life during FY 2010. These reserves are needed to account for the funds that have already been spent or obligated and are not available for appropriation.

Special Revenue Funds

Fire District Fund

The following table provides a comparison of the fund balance for the Fire District Fund over a four-year period. At the end of FY 2009 the Finance Department estimates that the fund balance will be about \$7.5 million. The level of cash reserves maintains the Fire Departments liquid position of having sufficient monies available to meet its cash flow and capital spending needs. The Fire District Fund currently operates with a special tax district mill rate of 3.90 mills. The Fire District Fund has built an adequate capital improvement reserve such that it can meet its physical plant needs going into FY 2010. The current mill rate appears to meet the need for building and staffing additional fire stations.

Fire District Fund (continued)

Major concerns in the way of annexation and consolidation of services still exist with the Fire District Fund. As the cities in the County continue to annex commercial property to increase their tax base, pressure is put on the County Fire Department to maintain its budget level as the special tax district digest gets smaller. Also, there has been some concern that the cities do not have adequate resources of their own to operate efficiently due to the number of times the County is called to assist in providing fire suppression services.

Fund Balance - June 30	4,989,383	7,190,072	7,511,265	7,511,265

The projected fund balance in the amount of \$7,511,265 on June 30, 2009 represents the combination of the Fire District Fund's minimum 10 percent of current revenues contingency reserve, with the remainder being available in the capital improvement reserve. The Fire Fund is on the modified accrual basis for both budgeting and actual reporting purposes.

Parks and Recreation Fund

The Parks and Recreation Fund is a self-supporting accounting entity in which the revenues collected from customers are expected to cover all of the expenditures incurred to provide the service. The following table provides a comparison of the fund balance for

Fund Balance - June 30	217,694	268,365	576,703	576,703

the Parks and Recreation Fund over a four year period. At the end of FY 2009, the Finance Department estimates that the fund balance will increase to \$576,703. Parks and Recreation operates a number of parks, recreation centers and senior centers. Through these facilities revenues are collected for different programs (e.g., tennis instruction, ceramic classes, youth baseball, and youth football). The revenues are then used to pay the expenditures incurred to run the program, with any net proceeds being retained by the fund. As the Parks and Recreation Fund accumulates fund balance it is able to purchase additional capital for the County's recreation facilities. Fund balance is increasing due to the funding of maintenance in the General Fund. Over the last couple of fiscal years the Parks and Recreation Fund has contributed significantly to purchasing equipment for the

McDonough Rd. Park, opening a tennis complex and maintaining The International Park, which has a man-made beach, water slides and two lakes. The projected fund balance in the amount of \$576,703 on June 30, 2009 represents net proceeds of program revenues over expenditures for FY 2009. This is the amount of money that is available for capital improvements. The Parks and Recreation Fund is on a modified accrual basis for both budgeting and actual reporting purposes.

Hotel/Motel Tax Fund

The Hotel/Motel Tax Fund is a self-supporting accounting entity in which the revenues collected from the County's Hotel/Motel tax are expected to cover all of the expenditures incurred to provide the service. The following table gives a comparison of the fund balance for the Hotel/Motel Tax Fund over a four-year period. The revenue generated by this fund comes from a tax surcharge to hotel/motel room stays. The monies are legally restricted for the promotion of tourism in Clayton County. Clayton County currently imposes a 6 percent tax surcharge on hotel/motel room stays. Of this amount, 2 percent is accounted for in the Hotel/Motel Tax Fund. The two percent will be spent at the discretion of the Board of Commissioners for tourism projects to promote Clayton County. The Hotel/Motel Fund is budgeted and reports on a modified accrual basis.

The annual fund balance for this fluctuates based on the amount of capital improvements the Tourism Authority plans for the current fiscal year. The Board will generally allow a reserve to build then authorize a capital improvement on a pay-as-you-go basis. During fiscal year 2003 the Tourism Authority Board recommended that the capital reserve be used to complete renovations at the Clayton County International Park. This action depleted the reserve. For fiscal year 2009 the staff is estimating that the fund will continue back on its growth trend.

Emergency Telephone System Fund

The estimated fund balance for the Emergency Telephone System Fund at June 30, 2009 is \$ 5,228,525 as exhibited in the following table. The primary reason for the relatively stable fund balance trend is that the County maintains a conservative policy on expending these funds, has invested wisely in equipment, and has managed personnel needs efficiently while insuring that public safety needs are met.

	FY 2007 ACTUAL	FY 2008 ACTUAL	FY 2009 ESTIMATED	FY 2010 PROJECTED
Fund Balance - June 30	4,108,294	5,018,376	5,228,525	5,228,525

The Emergency Telephone System Fund has pledged 75 percent of its wireless revenue for the debt service on the new Police/E911 Building. This will help to improve performance and efficiency in the operation and will ultimately save money in the future for the Emergency Telephone System Fund. The long-term outlook is that revenues will continue to adequately fund expenditures for this fund for the foreseeable future. The Emergency Telephone System Fund is on a modified accrual basis for budgeting and actual reporting purposes.

CLAYTON COUNTY, GEORGIA STAFFING POLICY AND CHANGES

The Clayton County Board of Commissioners is committed to providing their citizens with the highest level of services possible. In order to achieve this goal, the employees of the County must perform their assigned duties efficiently and effectively. The policy of the board is to provide these services with the current level of staff for as long as possible. However, the time arises when additional personnel are needed to fulfill the above-stated goals.

During the budget process, all County departments are given worksheets that allow them to request additional personnel for the upcoming fiscal year. The individual department is responsible for performing a realistic workforce evaluation that addresses their needs for the coming year, as well as years to come. Each department then submits their requests, with a detailed explanation attached, to the Chairman of the Board of Commissioners for his consideration. The Chairman then forwards these requests to the Finance Department in order to calculate the financial implications of the requests.

After performing a detailed financial analysis, the Finance Department submits their recommendations to the office of the Chairman. The Chairman and his staff then review the recommendations of the Finance Department in order to formulate a recommendation for the Board of Commissioners. The ultimate decision on staffing changes is made by the Board of Commissioners.

In Fiscal Year Ending June 30, 2010, the Board of Commissioners recommended no additional positions in the General Fund.

Please refer to the following two spreadsheets that provide a detailed breakdown of the current staffing level and of the approved new positions. The spreadsheet entitled ***Summary of Full-Time Personnel- Clayton County*** provides a detailed breakdown of the staffing level of the County for the past two years and the upcoming fiscal year. The spreadsheet entitled ***Approved New Position List*** details any of the new positions added for Fiscal Year 2010 and the department where they were added.

STRATEGIC PLANNING PARAMETERS
2010 Budget Document

I. Mission Statement

Clayton County will be the regional epicenter for its citizens and businesses, providing quality residential living, a vibrant international business climate, a growing corporate skyline, and an integrated multimodal transportation system. Clayton County will serve as an archway between the region and the world.

II. Strategic Goals and Objectives

The Clayton County Board of Commissioners has committed itself to achieving the goals of reducing crime and promoting safety, expanding services, maintaining the lowest possible tax burden on property owners, making operations more efficient, recognizing and rewarding the efforts of our employees and maintaining our capital assets and infrastructure. The Board of Commissioners views growth as an opportunity to increase the quality of life for taxpayers as well as County employees. Our strategic plan represents the specific methods and philosophies that we have chosen for facing future growth and enhancing the high standard of living in Clayton County. The plan below details how the safety, infrastructure, human resources, financial and technological goals mentioned above and on page 17 will be accomplished. Both short and long term goals for each department are detailed in the Departmental Summary section on pages 107-200.

III. The Plan

A. RESTORE PUBLIC TRUST IN COUNTY GOVERNMENT

- Full commitment to implementation of studies and plans.
- Communication of project status to citizens on a regular basis.
- Adopt a code of ethics to insure integrity.
- Utilize public relations staff to communicate with citizens.
- Hire/contract with a marketing firm to develop branding and marketing plan.

B. FISCAL STRENGTH THROUGH FISCAL CONSERVATISM

- Utilize available technological advances to make operations as efficient as possible.
- Enhance existing policies and procedures.
- Maximize the amount of interest income earned on idle cash balances through prudent investment practices.
- Identify opportunities where the amount of local taxes paid is replaced by a reduction in taxes assessed by other units of government.
- Utilize fees received for services rendered to reduce tax assessments.

STRATEGIC PLANNING PARAMETERS
2010 Budget Document

C. INFRASTRUCTURE EXCELLENCE

- Conduct a plan for a total infrastructure assessment to meet the County's future operating needs.
- Update the transportation plan based on current needs and growth demands.
- Ensure the accuracy of the County's financial records through an annual external audit and continue to apply the accounting standards and reporting changes required by the Georgia Department of Audits, U. S. Governmental Accounting Office, American Institute of Certified Public Accountants, and Governmental Accounting Standards Board (GASB) including Statements Number 34 - 45.
- Maintain safe vehicles and replace vehicles as they are deemed to be beyond repair or when the repair cost exceeds the value of the vehicle.
- Constantly evaluate fleet in order to ensure all vehicles meet Federal and State regulations that apply to emissions, fuel type and fuel consumption.
- Utilize available technological advances to make operations as efficient as possible.
- Continue to replace older computer technology and personal computers as needed.
- Create paperless County transactions where practical while maintaining the necessary level of record keeping.
- Encourage hardware and software improvements to increase operating efficiencies.
- Continue design and implementation of geographical information systems (GIS).

D. OPERATIONS AND SERVICE EXCELLENCE

- Ensure that the citizens' needs are being properly addressed by focusing on quality customer service.
- Reorganization of County government for efficiency and effectiveness.
- Allow a time during Commission meetings to be designated for public comment on pertinent subjects not already on the agenda.
- Ensure that employee contact with citizens is helpful and courteous.
- Evaluate and improve upon any customer service weaknesses that may exist with County employees' interaction with the public.
- Provide employee training as needed to establish and maintain a high level of customer service.
- Recognize and reward employees for their efforts.
- Continue an annual increase in employee compensation packages to reward employees for their performance and accomplishments.
- Provide a safe and friendly work environment for all County employees.
- Continue the newly established educational and recruitment incentive pay for certain experienced public safety officers.

E. MANAGING AND PLANNING FOR GROWTH AND ECONOMIC DEVELOPMENT

- Restructure of Community Development/Planning.
- Update zoning ordinances.
- Establish an economic development consortium to develop a strategy for economic growth.
- Develop a comprehensive master plan for land use, code enforcement, and zoning ordinances.
- Commissioners will meet periodically with the governing bodies of the cities, towns and school districts to discuss issues of mutual interest.
- Seek funding of a rail system.
- Facilitate the financial planning for future fiscal years, project expenditure needs and expected results of operation over a longer period of time.
- Department heads and their respective financial analysts are expected to continue to assemble data that will prepare the County for any future legal requirements, legislation or topics that may have impact on the operations of the County.
- The Board will review and adopt a Budget with realistic expenditure and conservative revenue projections.

F. LEADERSHIP

- All aspects of the County will improve efforts to work with local municipalities as needed.
- Each department is responsible for creating performance measures and tracking those measures to monitor their productivity.
- An annual audit of measures should determine whether they are good, measurable indicators of a department's work product and goals.
- Measures that are not indicative of the County and department's mission statements should be re-written to aid in the accomplishment of county-wide goals and objectives.

IV. Anticipated Short and Long Term Outcomes

- Minimal staff and service cuts during slow economies due to fiscal conservatism.
- Prevent unexpected use of fund balance through enhanced communication and planning.
- Prevent financial problems related to employee errors or theft by conducting external annual audits and random internal audits.
- Keep infrastructure growth parallel with population growth to avoid large costly discrepancies in services such as public transportation.
- Reduce large unexpected cost associated with outdated and obsolete equipment and vehicles by maintaining and making small purchases consistently.
- To reduce crime and promote safety by increasing public safety resources.

BUDGET DEVELOPMENT GUIDELINES FOR FISCAL YEAR 2010
2010 Budget Document

PROVISION OF SERVICES

Responsibilities in Budget Process

- All departments will share in the responsibility of meeting policy goals and ensuring long-term financial health. Future service plans and program initiatives will be developed to reflect current policy directives, projected resources and future service requirements.
- Departments are expected to fully justify each of their budgetary requests for funding. The budget process is intended to weigh all competing requests for County resources, within expected fiscal constraints.
- The Board of Commissioners is expected to approve a fiscally sound budget that will allow the County to continue to operate efficiently at its current level of services for years to come.

Full Range of County Services

- The County provides a full range of governmental services in order to maintain and enhance the quality of life in Clayton County. In the FY 2010 current service level budget, the full range of services will be maintained.
- Enhancements to and delivery modifications for the current service level will be identified separately in each department's budget submission.

REVENUES

Projections

- Revenues for all funds are projected on a conservative basis to ensure that sufficient financial resources are available to meet the anticipated obligations associated with delivering services to our citizens.
- Revenues are analyzed and budgeted on a line by line basis.
- Each account and revenue category is reviewed for all known factors affecting the projection.
- Elastic revenues, such as local option sales tax and interest income, will be projected on a basis consistent with staff's conservative economic assumptions for FY 2010.
- Legislative impacts are recognized and reflected in the forecast. For example caps on certain types of taxes may limit or reduce revenues.
- Historical trends and current receipts are analyzed to determine whether these levels will continue.
- Reimbursements from Grants and State agencies are reviewed to insure the County is eligible to receive reimbursement.
- Department heads responsible for receipt of revenues also review revenue projections to insure accuracy.

Property Taxes

- The property tax continues to be the most significant revenue source for the tax-supported funds of the County. The repeal of former Governor Barnes' homestead exemption will have a negative impact on property taxes.

CLAYTON COUNTY, GEORGIA
BUDGET DEVELOPMENT GUIDELINES FOR FISCAL YEAR 2010
2010 Budget Document

- As a means of funding current, capital outlay, debt service and intergovernmental expenditures as they relate to the service level for the previous fiscal year, Clayton County will set its maintenance and operations (M&O) millage at an amount which corresponds to that year's revenue production capacity. As a result, no additional property tax revenues were generated for the new budget year 2010.

User Fees

- All departments will review all user fees and charges that they collect to ensure that they represent the recovery of all direct and indirect costs of service, unless full cost recovery would be an excessive burden on those citizens receiving the service.

EXPENDITURES

General

- The Board has directed the County's staff to manage operations and capital projects in such a way that costs are within current revenues and that unanticipated needs can also be met within current resources.

Additional Personnel

- The Board of Commissioners has directed that the Budget include no new positions.

Pay-As-You-Go Capital Improvement Plan

- To avoid the costly issuance of debt and its associated annual expenses to the extent possible, Clayton County operates under a pay-as-you-go capital purchasing plan to meet most of its capital needs. Pay-as-you-go financing is defined as the utilization of all sources of revenue other than debt issuance (i.e., fund balance contributions, developer contributions, grants, donations, etc.) to fund its capital purchases.

CLAYTON COUNTY, GEORGIA
ADOPTED FISCAL POLICIES
2010 Budget Document

STATEMENT OF INTENT

The following policy statements are used to provide County employees with a set of guidelines as to how the various financial responsibilities associated with the operation of Clayton County are to be carried out. These policies provide general direction to staff, serve as a blueprint for financial operations, establish operational objectives and promote continuity in fiscal decision-making.

The fiscal policies utilized by Clayton County are advantageous to the County in several important ways. These fiscal policies promote long-term financial stability for the County. For example, the budget and reserve fund policies set the level of fiscal responsibility required to prepare the County for potential financial emergencies and abrupt adverse economic conditions. Also, the debt policies utilized by Clayton County limit the scenarios in which the County will pay for current services and projects with future revenues. Most importantly, these policies elevate the credibility of the governing body and promote public confidence in the financial decisions that are made. These policies require complete disclosure of financial matters and provide a forum, the Comprehensive Annual Financial Report, to inform the citizens about the overall financial condition of the County.

SECTION I - OPERATING BUDGET POLICIES

1. Clayton County will finance all current expenditures with current revenues. The County will avoid budgetary procedures that balance current expenditures through the obligation of future resources. Clayton County will not use short-term borrowing to meet operating budget requirements.
2. The operating budget will provide for adequate maintenance of capital equipment and facilities, as well as for their timely replacement.
3. All Governmental Funds under the control of the Board of Commissioners are subject to the annual budget process. Flexible or cash flow budgets will be prepared for Proprietary Funds (Enterprise and Internal Service) to establish fees and charges and to control expenses.
4. The annual operating budget must be balanced for all budgeted funds. Total anticipated revenues and other resources available must be at least equal to the estimated expenditures for each fund.
5. All budgets will be adopted on a basis consistent with Generally Accepted Accounting Principles (GAAP). Pursuant to Governmental GAAP, revenues are budgeted when they become measurable and available. Expenditures are charged against the budget when they become measurable, a liability has been incurred, and the liability will be liquidated with current resources.

CLAYTON COUNTY, GEORGIA
ADOPTED FISCAL POLICIES
2010 Budget Document

6. All unencumbered operating budget appropriations will lapse at year-end. Encumbered balances will be reserved on the year ending balance sheet and re-appropriated in the following fiscal period in accordance with Generally Accepted Accounting Principles.
7. Each operating fund budget will be adopted at the total fund level. In looking at compliance with State law, total expenditures for each fund may not exceed the total budget amount. Internal administrative procedures will be adopted to ensure that each individual department or cost center does not exceed their allotted appropriation amount.
8. Clayton County will integrate performance measurement and objectives, and productivity indicators within the budget. Performance measures should be quantifiable indicators about whether a department is reaching its goals. Each department along with the corresponding financial analyst is given the task of evaluating the effectiveness of performance measures. If current departmental resources are not used to meet goals, their resources are not increased.
9. The County will maintain a budgetary control system to ensure adherence to the budget and will prepare timely financial reports comparing actual revenues, expenditures and encumbrances with budgeted amounts. The operating budget shall be developed to control both the direct and indirect costs of programs and services whenever practical.
10. Implementation of a new purchase order requisition system (POR) that will require all departments to initiate a POR and have budget approval prior to accepting goods and services.
11. Clayton County shall comply with all State laws applicable to budget hearings, public notices, public inspections and budget adoption.
12. The budgets for Enterprise and Internal Service Funds shall be self-supporting whenever possible. Excess revenues of Enterprise Funds shall not be transferred to other funds unless authorized in the Annual Budget.
13. Merit Increase Policy when applicable: If an employee's prior year review/hire/promotional date falls within the first seven days of the pay period, the Personnel Action will become effective at the beginning of that pay period. If an employee's prior year review/hire/promotional date falls within the last seven days of the pay period, then the Personnel Action will become effective on the first day of the next pay period.
14. The budget shall be adopted at the legal level of budgetary control which is the object level/line item level of control. The Chairman or his designee shall have the authority to transfer funds within a department from one line item to other line items except for salary line item increases. The Clayton County Board of Commissioners must approve any increases in the regular salary and wages account. County departments/Elected officials will not be allowed to exceed their salary and wages account without approval from the Board.

SECTION II - CAPITAL POLICIES

1. For budgeting purposes, a capital expenditure is generally defined as the acquisition of any asset with an anticipated cost of at least \$5,000 or more and an estimated useful life greater than one year.
2. Clayton County will undertake capital projects to achieve the following goals:
 - Construct and maintain infrastructure and public facilities;
 - Promote economic development;
 - Enhance the quality of life;
 - Improve the delivery of services;
 - Preserve community and historical assets.
3. Clayton County will initiate all capital purchases within the development of the operating budget to ensure that future operating costs are projected and included in the operating budget where appropriate.
4. Clayton County will utilize a Vehicle Replacement Reserve to acquire and manage the replacement of county vehicles. Vehicles will be replaced when they are beyond repair or when the repair cost exceeds the value of the vehicle.
5. Clayton County will aggressively seek public and private grants, contracts and other outside sources of revenue to fund projects.

SECTION III - RESERVE FUND POLICIES

1. Clayton County will strive to maintain a General Fund working reserve from the unreserved and undesignated fund balance equal to at least 10% of General Fund Revenues. This reserve shall be created and maintained to provide the capacity to:
 - Offset significant economic downturns and the revision of any general government activity;
 - Provide sufficient working capital; and
 - Provide a sufficient cash flow for current financial needs
2. Unreserved, undesignated fund balances for Governmental Funds in excess of the working reserve should be used only for one-time capital non-operating expenditures or mill rate reductions as approved by the Board of Commissioners.
3. Clayton County will maintain reserves in compliance with all debt service requirements to maintain bond ratings and the marketability of bonds.

CLAYTON COUNTY, GEORGIA
ADOPTED FISCAL POLICIES
2010 Budget Document

4. Clayton County will develop capital funding to provide for normal replacement of existing capital plant and additional capital improvements financed on a pay-as-you-go basis.

SECTION IV - REVENUE ADMINISTRATION POLICIES

1. Clayton County will try to maintain a diversified and stable revenue system to shelter it from short-term fluctuations in any one major revenue source. The revenue mix should combine elastic and inelastic revenue sources to minimize the adverse effects of an economic downturn.
2. Clayton County will estimate its annual revenues in a conservative and analytical manner.
3. Clayton County will follow a policy of paying for services with user fees when possible to reduce the reliance on taxes and other general revenue sources.
4. Clayton County will aggressively seek public and private grants, as well as contracts and other sources of revenues for funding projects where appropriate.
5. Clayton County will set fees and charges for each Enterprise and Internal Service Fund, at a level that fully supports the total direct and indirect cost of the related activity. Calculations of indirect costs will include the cost of annual depreciation of capital assets and requirements for future capital costs.

SECTION V - ACCOUNTING, AUDITING AND FINANCIAL REPORTING

1. An independent audit in compliance with Generally Accepted Audit Standards will be performed annually by a qualified external auditor in accordance with Georgia Code Section 36-81-7.
2. Clayton County will prepare a Comprehensive Annual Financial Report (CAFR) in accordance with Generally Accepted Accounting Principles (GAAP) for governmental entities. The County will strive to prepare the Comprehensive Annual Financial Report to meet the standards of the GFOA Certificate of Achievement for Excellence in Financial Reporting Program. The County will also submit the Annual Budget to GFOA for consideration for the Distinguished Budget Presentation Award.
3. Clayton County will establish and maintain a high degree of accounting practices. Accounting records and systems will conform to Generally Accepted Accounting Principles. Clayton County will maintain accurate records of all assets and a high standard of stewardship for public property.

CLAYTON COUNTY, GEORGIA
ADOPTED FISCAL POLICIES
2010 Budget Document

4. Clayton County will develop an ongoing system of financial reporting to meet the needs of the Board of Commissioners, department directors, and the general public. Reporting systems will monitor the costs of providing services. The reporting systems will also promote budgetary control and comparative analysis.
5. Clayton County will follow a policy of full disclosure on its Financial Reports.

SECTION VI - DEBT POLICIES

1. Clayton County will confine long-term borrowing to capital improvements and moral obligations.
2. Clayton County will not use short-term debt for operating purposes.
3. Clayton County will follow a policy of full disclosure on every financial report and bond prospectus.
4. General obligation debt will not be used for Enterprise Fund activities.
5. Clayton County will use general obligation debt to fund general-purpose public improvements, which cannot be financed from current revenues, available fund balances, or other current sources of capital financing.
6. Clayton County will limit the use of capital lease purchases, certificates of participation and other types of short-term debt when possible.

SECTION VII - INVESTMENT POLICIES

1. Clayton County will maintain an active program of investing all government funds under the direction of the Finance Director or his/her designee.
2. The investment program shall be operated based on the following principles, with priorities placed on the order as listed below:
 - Safety of Principal - Principal is protected from loss with secure investment practices and collateralization.
 - Maintenance of Adequate Liquidity - A sufficient quantity of investments are readily convertible to cash when needed to meet current obligations, without incurring losses.
 - Yield or Return on Investment - The earnings rate on investments is maximized without diminishing the other principles.

CLAYTON COUNTY, GEORGIA
ADOPTED FISCAL POLICIES
2010 Budget Document

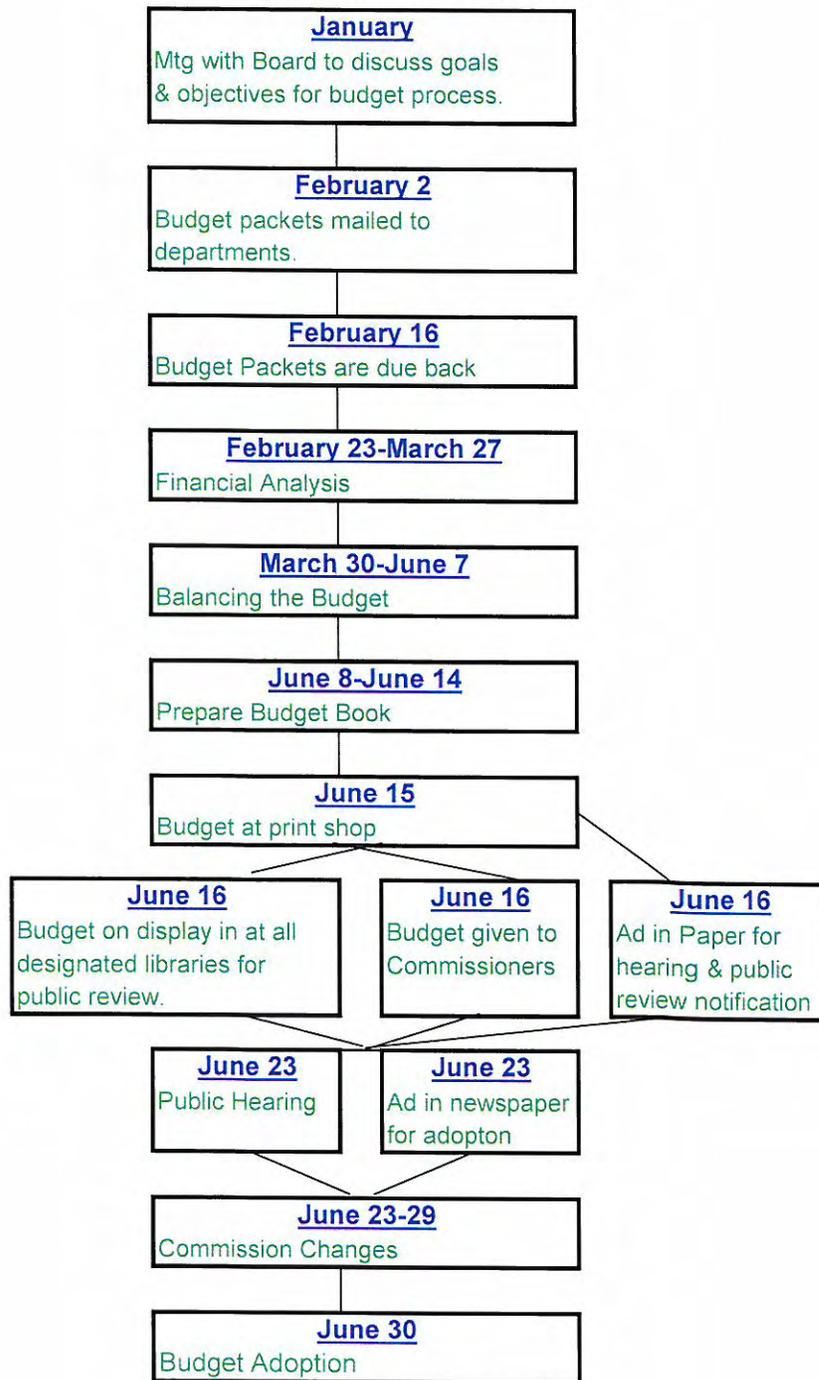

- Legality - All investments will fully comply with State and Local laws. Specific requirements, such as those set forth in bond ordinances, will take precedence and could further restrict investment options.
- 3. The investment program will use a competitive selection process for investments in excess of 30 days. Investments will only be placed with qualified financial institutions.
- 4. The investment program will provide for a system of internal control over investments and timely financial reporting of investing activities.
- 5. The Board of Commissioners will approve an investment policy setting forth more specific direction to staff.
- 6. The investment program shall comply with all Georgia laws and Federal regulations for investing public funds and security requirements.

SECTION VIII - PURCHASING POLICIES

- 1. It is the intent of the Clayton County Board of Commissioners to establish uniform regulations and procedures to provide for an efficient and fiscally responsible system for the purchase of materials and services necessary for the effective operations of the County.
- 2. The Director of Purchasing will be responsible for the County's purchasing system. All purchases for goods and services must be according to the County's adopted purchasing policies, regulations and procedures.
- 3. All departments and agencies of Clayton County must utilize competitive bidding procedures, as set forth in the Clayton County Code. Bids will be awarded on a nondiscriminatory basis with efforts to include local and minority businesses.
- 4. Clayton County will strive to obtain the highest quality of goods and services for the most economical costs. Bulk purchases, quantity discounts, standardization of common items, and other approaches will be used to economically acquire goods and services.

Budget Process Flowchart

CLAYTON COUNTY, GEORGIA
BUDGET PROCEDURES
2010 Budget Document

The budget process for the fiscal year began in January. The constant review and refinement of budget data continues through the adoption of the budget in mid June. The process culminates with the publication of the final approved budget document in late June. This budget preparation cycle is summarized on the budget flowchart that precedes this section (page 88).

The first week in February, the Finance Department prepared and mailed a budget request packet for every County department. The packets contained all of the necessary materials and instructions needed by each department to complete its annual budget request. There are several items that each department receives in their budget request packet. They receive a report of the previous fiscal years' actual and budget amounts, with a space to enter the upcoming fiscal year budget request. They also receive forms that allow them to enter requests for annual lease agreements, consulting services, other contract service fees, new personnel, part-time personnel, dues and subscriptions, training, travel and meetings, automobiles, computers, and other equipment items.

During the following month, departments assess their needs for the upcoming fiscal year and prepare their budget requests accordingly. Using the current payroll information, the salary and benefit costs of each current budgeted position is projected by the Finance Department and is already completed in the budget printout. After assessing their needs for the upcoming fiscal year, the departments are required to return their budget request packets, with all the necessary forms completed, to the Finance Department no later than February 16th.

As the budget request packets are returned, the Finance Department analyzes the budget requests and enters them into the budget system in the requested budget column as they appear on the request forms. After further analysis, the Finance Department develops a conservative but reasonable budget for the upcoming fiscal year for each County department. The budget at that point is referred to as the staff's working papers. The Finance Department is required to complete this process no later than the first week of March.

Typically, during the second week of March, the Chairman of the Board of Commissioners begins a series of budget meetings where each department is allotted between 30 minutes and 2 hours to meet and discuss their budget with the Chairman of the Board of Commissioners, Finance Director, Budget Manager and Financial Analyst. Budget hearings are open to participation for the full Board of Commissioners. This meeting typically serves as an opportunity for County departments to participate in the Zero-Based Budgeting Approach and explain the need for each dollar to the Chairman, Finance Director and Budget Staff. The staff's working papers are then altered to include any additional critical budgetary needs that had not previously been addressed. These meetings last for approximately five weeks, depending on availability and scheduling issues. However, for FY 2010 budget hearings were not conducted. For FY 2010 each budget analyst met with each department to discuss the needs of their budgets and to focus on reductions.

CLAYTON COUNTY, GEORGIA
BUDGET PROCEDURES
2010 Budget Document

After meeting with the department heads, the Budget staff meets for one week to make the final adjustments to the working papers and to begin balancing the budget. This is a time period when all conservative revenue projections are finalized and all operational budget requests are decided upon.

Once all of the necessary changes are made to the working papers, the budget is then referred to as the Chairman's recommendations and all departmental enhancements are entered onto the applicable pages.

The Commissioners are then presented with a proposal of a fiscal year budget typically during the third week of June so that they may review it in order to field questions from the public. The first public hearing is typically held during a night meeting unless there are scheduling issues. Prior to the first public hearing, copies of the proposed budget are placed on display in the Clayton County Library Headquarters, the Lovejoy Library, the Morrow Branch Library, the Riverdale Library and the Jonesboro Library. An ad is placed in the local newspaper, prior to the first hearing, announcing the date and time of the hearing and locations where the document may be reviewed.

The adoption of the fiscal year budget is scheduled for the last week in June. During this scheduled meeting, citizens of Clayton County and members of the Board of Commissioners are encouraged to ask questions. Once the Board of Commissioners approves the fiscal year budget, members of the Budget staff immediately begin preparing the annual budget for printing in its approved status. The revised budget book is then mailed out to department heads and elected officials. The budget is also submitted to GFOA for the Distinguished Budget Presentation Award Program within 90 days of its adoption.

Once the budget is adopted, unexpected events may require the budget to be altered. Such events may include an increase in the cost of goods or services, a change in departmental priorities or the unexpected repair of a large piece of equipment. In order to accommodate these changes, the Board of Commissioners has approved budget transfer procedures. The Board of Commissioners follows all State Statutes and Guidelines governing the adjustment of approved budgets. Clayton County refers to the first type of procedure as a Line Item Transfer. It involves the transfer of money between line items within the same budget. When a department realizes a problem may exist, the appropriate analyst is contacted and either the department will provide suggestions or the analyst will be asked for suggestions regarding the best possible line item to remove the money and cover the shortfall. After the initial contact and decision, the proper form is completed and given to the Finance Director for review and then to the Chairman of the Board of Commissioners for approval. The Chairman may approve any Line Item Transfer that does not involve increases in Regular Salaries and Wages. If approved, the change is entered into the financial system.

The second type of transfer procedure is referred to as a Budget Amendment. It alters the amount originally approved in the budget. If a department has a shortfall of funds then their budget is altered either by increasing revenue or appropriating fund balance. Increases to the Salary account must also be considered a budget amendment and be presented to the Board of Commissioners. A request is sent from the Department to their assigned Financial Analyst who reviews it, prepares the correct

documentation and submits it to the Finance Director for review. It is then presented to the full Board of Commissioners during a regularly scheduled business meeting. If approved, the change is entered into the financial system and reflected in the financial statements accordingly. Departments are not encouraged to alter the budget unless it is an emergency.

BASIS OF BUDGETING

Clayton County's annual appropriated budget estimates anticipated revenues and authorizes expenditures. The system used to determine when budgetary revenues are realized and when budgetary expenditures are incurred is known as the budgetary basis of accounting. Sometimes, the budgetary basis of accounting is the same basis of accounting as that used to prepare the financial statements in conformity with GAAP. However, other basis of accounting may also be used for the budget. For example, some components generally recognize revenues and expenditures for budgetary purposes only when cash is received or disbursed (i.e. cash basis). Others use a modified accrual basis and recognize revenues and expenditures for budgetary purposes on a GAAP basis, while treating certain financial commitments such as purchase orders (encumbrances) as expenditures. The Basis of Budgeting for Clayton County for Governmental Funds is Modified Accrual. Enterprise and Internal Service Funds are budgeted based on the Accrual method. The Basis of Budgeting is detailed for each fund in the Budget Summary Section.

The General and Special Revenue budgets are subject to appropriation and adopted on a basis consistent with GAAP. All unencumbered annual appropriations lapses into the fund balance at fiscal year end. Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting is utilized in the governmental funds. Encumbrances outstanding at the end of the fiscal year are reported as reservations of fund balances and are incorporated as adjustments to the following year's budgets.

The budget for the Airport Authority and the Solid Waste Authority are adopted on the cash basis of accounting to ensure compliance with the existing bond ordinances. During the fiscal year, the budget information is used only as a management tool to monitor the flow of cash for these funds.

CLAYTON COUNTY, GEORGIA
BASIS OF ACCOUNTING
2010 Budget Document

The government-wide financial statements of Clayton County (i.e. the statement of net assets and statement of activities within the CAFR) report information on all of the non-fiduciary activities of the County and its component units. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the County is reported separately from certain legally separate discrete component units for which the County is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows; however, a portion of delinquent taxes is recorded as uncollectible. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the current financial period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt services expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of the special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available when cash is received by the government.

DESCRIPTION OF FUNDS
2010 Budget Document

DESCRIPTION OF FUNDS

The County reports the following major funds:

The general fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those accounted for in another fund.

The debt services fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

The capital project funds account for the acquisition or the construction of capital facilities.

The special revenue funds account for revenue sources that are legally restricted to expenditure for specific purposes.

The Fire District Fund, a major special revenue fund, is used to account for fire protection provided within the fire district. Financing is derived principally from a special tax levy against property owners within the unincorporated area of the County.

Internal service funds account for the operations that provide services to other departments or agencies of the County, or other governments, on a cost reimbursement basis.

The enterprise fund is used for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs of providing goods and services to the general public on a continuing basis is financed or recovered primarily through user charges.

The agency fund is used to account for the collection and disbursement of monies by the County on behalf of other governments and individuals, such as cash bonds, traffic fines, support payments and ad valorem and property taxes.

This budget contains the following funds:

- 101 General Fund,
- 201 Fire District Fund,
- 205 Parks and Recreation Fund,
- 210 Hotel/Motel Tax Fund (2% Tax),
- 211 Clayton Tourism Authority Fund (4% Tax),
- 215 Emergency Telephone System Fund,
- 220 Federal Narcotics Condemnation Fund,
- 221 State Narcotics Condemnation Fund,
- 230 Jail Construction and Staffing Fund,
- 240 Juvenile Supplemental Services Fund,
- 250 Drug Abuse Treatment and Education Fund,

**CLAYTON COUNTY, GEORGIA
CAPITAL PROGRAM AND BUDGET
FISCAL YEAR 2010**

Policies and Procedures

Clayton County has not adopted a formal budgetary process to prepare a five-year Capital Improvement Program (CIP). The Finance department currently consults with the Board of Commissioners to determine the future operating budget required for specific major capital improvement projects and how those projects will be funded. As part of the fiscal year 2010 budget preparation process, information for capital improvements in the County were updated and presented to the Commissioners for their consideration. With the current changes in the budgeting process and the need for a written and formally adopted Capital Improvement Plan, the Finance staff plans to continue in its efforts towards the adoption of a formal long-term capital improvement plan. With the requirements of GASB Statement No. 34, a formal Capital Improvements Program is imminent. The Finance Department has prepared useful life and cost information on infrastructure as part of the GASB Statement No. 34 implementation process. With this information, the preparation of a CIP budget would be the next step in the process.

For fiscal year 2010, a one-year capital budget was developed for major Governmental Fund Type capital purchases and projects. A detail by function, department, and project follows this discussion. This budget is the first step in the process of adopting a Capital Improvements Program. Clayton County has adopted a pay-as-you-go capital budgeting plan. Funding for the fiscal year 2010 approved projects has been budgeted in two ways: one, as an operating expense to the specific department responsible for the project, and two, as an operating transfer to a separate Grants Fund or Capital Project Fund from the appropriated funds available in the General Fund and certain Special Revenue Funds. It is important to note, that major capital projects in the Enterprise Funds are normally not included as part of the operating budgets of those funds. These projects are usually financed by the issuance of debt with principal and interest payments spread over the approximate useful life of the asset being purchased. The result is that those users, who benefit from the existence of the asset, pay for the cost of the asset as part of their user charges. Below is a summary of all capital expenditures by fund:

<u>Fund</u>	<u>Amount</u>
General Fund	\$1,491,987
Federal Narcotics Fund	\$ 300,000
Capital Projects Fund SPLOST 2004	\$ 57,205,709
Capital Projects Fund SPLOST 2009	<u>\$ 32,185,500</u>
Total Capital	\$ 91,183,196

**CLAYTON COUNTY, GEORGIA
CAPITAL PROGRAM AND BUDGET
FISCAL YEAR 2010**

The purchase of equipment and funding for projects are included as part of the normal operating budget of Governmental Fund Types. For fiscal year 2010, the County has programmed the purchase of \$1,491,987 for fixed assets which are assets that have a cost greater than \$5,000 and has a useful life greater than 1 year. Due to the economy there is currently a limit on capital expense and only emergency vehicles will be purchased due to the decrease in revenues.

The purchase of fixed assets represents less than 1% of total expenditures in the fiscal year 2010 budget. A detail by department of fixed assets and capital project budgets are included in the schedules that follow this discussion. There are principally three operating policies that drive capital outlay decisions. The first is one that parallels the capital maintenance theory of accounting. It is the goal of the County to have sufficient resources available in a fiscal year to make any necessary capital purchases. Thus, the decision to replace existing plant, property, and equipment is normally based on when it would prove to be cost effective to do so.

As equipment ages and becomes less dependable, it is scheduled for replacement as an integral part of the operating budget. Estimated useful lives and replacement costs are established for equipment, other than motor vehicles. Using this information, each item scheduled for replacement is a component of the budget. Because of the significant impact on the annual budget and the importance in the delivery of effective services, motor vehicle purchases are generally treated differently than other equipment. Vehicle replacement in the past was based on a point system which evaluated repair costs, age and mileage to provide a score used to schedule vehicles for replacement. Fiscal year 2005 was the last year the point system was utilized. Fiscal year 2006 was the first year to utilize a system based on the ability to cost effectively repair vehicles. Vehicles are now replaced when they are beyond repair or when the repair cost exceeds the value of the vehicle. Newer replacement vehicles are expected to achieve a fuel cost savings ranging from 5 to 10 percent. The County continues to purchase similar vehicle models in order to reduce the inventory of spare parts required, reduce repair and maintenance costs.

A second policy guiding capital outlay decisions is whether the purchase serves as a technological advancement. The Board of Commissioners has adopted the concept of providing computer equipment to gain efficiency rather than adding new positions to handle the increasing workload of a growing County. The last of the principal operating policies involves the impact of the capital outlay request on the enhancement of services. Capital outlay decisions most often occur in public safety and recreation. Additions of lights to a soccer field or the purchase of playground equipment for a park enhances the investment the County has at an individual site. Similarly, the purchase of portable computers and scanners for emergency medical service personnel serves to increase the level and value of the services that can be provided to the public.

**CLAYTON COUNTY, GEORGIA
CAPITAL PROGRAM AND BUDGET
FISCAL YEAR 2010**

Currently, the capital budget process takes place in conjunction with the operating budget process. All departments are required to submit their capital budget requests with their operating requests. As with operating budget requests, capital budget requests are reviewed by the Finance Department, and it is determined whether funding is available for the purchase and whether the purchase is scheduled as part of the replacement of fixed assets. Once the Finance Department has completed its process, the request for capital items is reviewed by the Chairman of the Board of Commissioners for approval to be included in the final document submitted to the Board of Commissioners. The Board, through the normal budget hearing process, will review the departmental requests for capital outlay. Department capital outlay requests that are deleted from the budget through any of the review processes are open to further discussion upon request by individual Elected Officials or Department Directors. Once the final review process is complete, the capital budget is approved as part of the operating budget.

Defining the Capital Improvement Plan (CIP)

Included in the County's plan are capital items that can be broken down into capital expenditures and capital projects. These two components are defined as follows:

Capital Expenditures - Charges for the acquisition of a single purchase of equipment, land, or improvements of land, buildings, fixtures, and other permanent improvements with a value of more than \$5,000 and a useful life of more than one year. Repairs and maintenance of existing County buildings is not a capital expenditure. These items are budgeted within an individual department's annual operating budget. A listing of Capital Expenditures is included in the schedule that follows this discussion.

Capital Improvement Projects - An undertaking that has a specific objective that covers a specific period of time and does not occur on an annual basis. Instead of being part of the County's annual operating budget a capital project expenditure plan is adopted by the Board of Commissioners on a project-by-project basis and serves as an appropriate spending parameter for the current fiscal year. Projects in the fiscal year 2010 capital project budget fall into this category. The purpose of the particular expenditure most often dictates what the accounting treatment will be for the transaction. The C.I.P. budget is generally accounted for in a Capital Projects Fund and usually involves extensive construction for a new or totally renovated building.

Clayton County currently has a Special Purpose Local Option Sales Tax (SPLOST) first approved in FY 2004. In July of 2008 the citizens of Clayton County voted to extend the 1 percent sales tax for a new five year period. The new SPLOST which began in January of 2009 will be utilized to provide capital for infra-structure projects in areas such as, juvenile court, public safety, library construction and fire.

**CLAYTON COUNTY, GEORGIA
CAPITAL PROGRAM AND BUDGET
FISCAL YEAR 2010**

The existing SPLOST was utilized for new recreation centers and road improvements throughout the County. Transportation and Development has a budget of \$41,000,000 for Road, Bridge and Intersection Improvements included in the 2010 budget while Parks and Recreation has \$16,205,709 budgeted. Throughout the year, projects may be added or deleted to the list based on increases or decreases in the collection of SPLOST dollars. Transportation and Development projects may be altered based on changing priorities. The above projects are a part of a master plan for Parks and Recreation and Transportation and Development. The County has experienced population growth rates and changes in the demographic make-up which dictates the need for master plans in both departments

Financial Impact of Capital Expenditures on the Operating Budget

As indicated above, capital expenditures are appropriated in the fiscal year 2010 operating budget. These capital expenditures are exclusively, with a few exceptions, for replacement equipment, which has either become obsolete or has met its useful life. Therefore, it is the determination of the County that these expenditures of funds will impact not only the current operating budget and will specific ongoing impact on future operating budgets.

Financial Impact of Capital Projects on the Operating Budget

Clayton County uses the term “capital projects” to refer to the construction or acquisition of major government facilities and infrastructure. In accordance with generally accepted governmental accounting practices, most of these projects are accounted for separately in the Capital Projects Fund. Funding for these projects are usually from three sources: 1) pay-as-you-go philosophy which often results in a transfer of monies from other funds; 2) use of debt such as bonds, certificates of participation, or lease purchase arrangements; and/or 3) use of a specific source of revenue other than general revenues such as grants, impact fees, or the Special Purpose Local Option Sales Tax (SPLOST).

Regardless of how the projects are funded, when these projects are completed they often have the potential of having a significant financial impact on the operating budget. Although there were not specific “capital projects” budgeted through the FISCAL YEAR 2010 budget process, there are several on-going capital projects that are expected to impact the operating budget of the current and subsequent fiscal years. The following provides a discussion of capital projects that are currently underway and their expected impact on the cost of operations. The maintenance and utility cost have been taken into consideration with the operating funds.

Recreation Center #4 – Recreation Center #4 is in the planning phase currently. The location will be located in Lovejoy. All of the new facilities house gymnasiums, class rooms, meeting rooms, fitness rooms, game rooms, pools and kitchens. The centers are approximately 30,000 square feet. Construction should begin in early FISCAL YEAR 2010.

CONSTRUCTION EXPENDITURES	ACTUAL FY 2009	ESTIMATE FY 2010	ESTIMATE FY 2011

Operating Costs	0	184,010
Repair and Maintenance	0	100,000
Total Expenses	\$ 0	\$ 796,295

The fiscal year 2010 budget does not include funding for operations of the center as it is not expected to be completed until the second month of fiscal year 2011.

Recreation Center #5 – Recreation Center #5 is also still in the planning and design phase, however; the location is in Jonesboro. It will house many of the same amenities as the other recreation centers built by SPLOST dollars.

There will not be an operational impact of recreation center #5 because it is unlikely that the project will begin in FY 2010. Fiscal year 2011 will feel much of the impact of recreation center #5. The funding for recreation center #5 will be amended when the site has been chosen.

CONSTRUCTION EXPENDITURES	ACTUAL FY 2009	ESTIMATE FY 2010	ESTIMATE FY 2011

Recreation Center #6 – Recreation Center #6 is in the planning and design phase. It will house many of the same amenities as the other recreation centers built by SPLOST dollars.

There will not be an operational impact of recreation center #6 because it is unlikely that the project will be complete by FY 2010. Construction will begin on recreation center #6 as soon as final funding is collected during FY 2010.

Capital Improvement Program Future

The Finance Department, with direction from the Board of Commissioners, will begin preparation of a Capital Improvements Program (CIP) in the near future. The program will identify and prioritize capital improvement needs and develop funding sources on a multi-year basis, along with determining the impact of the CIP on future operating budgets.

FISCAL IMPACTS ON OPERATING BUDGET	FY 2009 ACTUAL	FY 2010 BUDGET	FY 2011
General Fund – Buildings & Improvements	\$0	\$0	\$0
General Fund – Autos & Trucks	\$ 500,000	\$ 1,321,987	\$ 500,000

Annual Change Amount	N/A	\$ 367,915	\$(0)
Percentage Change	N/A	32.7%	(0%)

The information on the schedule above and the chart that follows outlines the fact that ongoing capital maintenance for Clayton County has a smaller impact on the 2010 general fund budget than in prior years. Current economic conditions have impacted decisions to fund capital projects out of the general fund. The estimated financial impact of the General Fund improvements is expected to be a savings of \$ 35,000 for fiscal year 2010.

Board of Commissioners

Mission, Goals, Issues, Performance Measurements and Budget

Board of Commissioners (Mission Statement)

Clayton County will be the regional epicenter for its citizens and businesses, providing quality residential living, a vibrant international business climate, a growing corporate skyline, and an integrated multimodal transportation system. Clayton County will serve as an archway between the region and the world.

Board of Commissioners (Functions)

County Governing Authority.

Board of Commissioners (Goals and Issues)

1. To restore public trust in County Government.
2. To promote fiscal strength through fiscal conservatism.
3. To work towards infrastructure excellence.
4. To increase efficiency of operations and improve service to constituents.
5. To manage and plan for growth and promote economic development.

Departmental Issues for FY 2010

1. Communicate projects status to citizens on a regular basis.
2. Adopt a code of ethics to insure integrity.
3. Maximize the amount of interest income earned on idle cash balances through prudent investment practices.
4. Identify opportunities where the amount of local taxes paid is replaced by a reduction in taxes assessed by other units of government.
5. Utilize fees received for services rendered to reduce tax assessments.
6. Conduct a plan for a total infrastructure assessment to meet the County's future operating needs.
7. Ensure that the citizen's needs are being properly addressed by focusing on quality customer service.
8. Reorganization of County Government for efficiency and effectiveness.
9. Provide a safe and friendly work environment for all County Employees.
10. Promote the creation and monitoring of meaningful performance measures, in each department, to aid in the accomplishment of County-wide goals and objectives.

Community Development/Planning & Zoning

Mission, Goals, Issues, Performance Measurements and Budget

Community Development/Planning & Zoning (Mission Statement)

To provide prompt, accurate and courteous customer service to the citizens of Clayton County through the issuance of Business License, Alcohol License and Building Permits. To provide thorough inspections of all buildings throughout the County to safeguard life, health and public welfare. To promote quality development within Clayton County by sustaining communication with all County departments to ensure all County Codes are being met. To increase public knowledge and involvement in the development process and to improve customer service and problem solving in a professional and effective manner. To assure quality control of all developments pertaining to rezoning, site plan approvals, variances and signage.

Community Development/Planning & Zoning (Functions)

To promote development in the County and issue business licenses and permits. To regulate and inspect buildings and site developments. To administer all planning & zoning issues.

Community Development/Planning & Zoning (Goals and Issues)

Departmental Goals

1. To improve the quality of work performed by Community Development employees by training and encouraging good customer service.
2. To maximize County revenue by ensuring all businesses and projects are properly licensed and/or permitted.
3. To provide more continuing education, training courses and certification programs for our inspections personnel.
4. To educate, train and implement all procedures involving the new zoning ordinance.
5. To use existing staff more effectively to ensure better quality developments.
6. To allow smart growth initiatives involving communities that will provide residents the convenience of living, working, shopping and recreation within their own communities.

Departmental Issues for FY 2010

1. Promote cross-training within departments to ensure coverage of duties when absences occur.
2. Ensure all businesses are properly licensed by having inspectors confirm Business License conformance as soon as possible after renewals are completed.
3. Encourage all employees to attend job related classes provided by our Clayton County Personnel Department, on a monthly basis, coordinated by their supervisor.
4. Inspectors are encouraged to attend continuing education courses and obtain further certifications from ICC on an ongoing basis, set up by their supervisors.
5. Ensure that all P & Z employees are familiar with the new Zoning Ordinance by mid-year.
6. Hold meetings with homeowners associations explaining developments in their area and taking questions; explaining zoning regulations, demographics and land use.

Departmental Issues for FY 2011 and Beyond

1. To continue to provide the best, most accurate and courteous customer service to the citizens of Clayton County as we issue all Business License, Alcohol License, and Building Permits to the citizens.
2. To continue to educate and train our trade inspectors so each inspector is certified in all facets of building inspections. This will improve the quality of inspections for all structures in the County.
3. To continue to maintain and provide information to the public concerning zoning regulations, demographics and land use.
4. Manage the enforcement, interpretation and administration of all planning and development issues.

Library System

Mission, Goals, Issues, Performance Measurements and Budget

Clayton County Library System (Mission Statement)

To contribute to the success of the citizens of our diverse community by offering a full range of library services that meet their informational, educational and leisure interests, fostering the love of reading in our youth and the lifelong pursuit of knowledge for all.

Clayton County Library System (Functions)

To provide library services including circulation of a collection of up-to-date materials, provide public access computing for citizens and provide both print and electronic information resources and assistance to citizens to use these resources and locate needed information.

Clayton County Library System (Goals and Issues)

1. Use \$52,000 (SPLOST funds) to retrofit the Headquarters Library Genealogy Room as a public computer lab.
2. Partner with the school system in building a competitive workforce by providing assistance with school assignments to students through "Live Homework Help", public use computers and materials collections that support the school curriculum.
3. Acquire sites for two new libraries approved in 2008 SPLOST, meet requirements for State Public Library Capital Outlay Grant application process.
4. Work with private and public agencies, including summer camps and child care centers to provide books and other library services to children unable to visit our libraries.
5. Continue staff development in expertise relevant to the needs of our citizens to update and strengthen the materials collection of the libraries.

Departmental Issues for FY 2010

1. Address safety and security issues at all library locations.
2. Replace 65 public use and 11 staff computers which are 4+ years old and used 59+ hours per week. This is 42% of the public use computers which are due for replacement.
3. Select and purchase site for Forest Park Branch Library.
4. Seek funding for an addition/renovation of the Forest Park Branch Library.
5. Replace damaged and stained carpet at the Riverdale Branch Library.
6. Address maintenance issues such as window cleaning, pressure cleaning of buildings.

Departmental Issues for FY 2011 and Beyond

1. Assure that funds available for the purchase of library materials keep up with population growth and inflation. Offer access to additional high quality online resources through the library website for remote access from home or work.
2. Fund a three year replacement cycle for public use computers, 142 computers were provided by Georgia Public Library Service in 2004 and many will need to be replaced in FY10.
3. Develop library services to citizens who are recent immigrants.
4. Seek funding to renovate the Jonesboro Branch Library and add a meeting room.

Parks and Recreation

Mission, Goals, Issues, Performance Measurements and Budget

Parks & Recreation (Mission Statement)

To foster leisure activities, pursuits and experiences through the provision of comprehensive and affordable recreation programs and facilities to the citizens of Clayton County.

Parks & Recreation (Functions)

To provide recreational programs and manage recreational facilities.

Parks & Recreation (Goals and Issues)

Departmental Goals

1. To implement department policies and provide high quality administrative and business support to all levels of operation in order to assist Division Management in achieving the department's mission-related objectives.
2. To operate and maintain parks, park facilities, infrastructure and properties entrusted in our care for County citizens and other park users in order to satisfy their leisure needs.
3. To provide the finest multi-purpose facilities and programs for County residents, guests and visitors in order to serve their leisure needs.

Departmental Issues for FY 2010

1. To process 95% of purchase order requests within four business days of receipt, toward a target of 98%.
2. To pay 95% of invoices within 30 days of receipt, toward a target of 98%, in order to ensure timely payment to vendors.
3. To increase the number of participants in program/ class related activities by 50% through new marketing related initiatives.
4. To develop a flow chart process for new hires and processing of payroll functions to increase better efficiencies due to an increase in staff and work load.
5. To process 95% of documented injury report claims within four business days of receipt to appropriate channels toward a target of 98%.
6. Develop maintenance standards consistent with operational needs and desired levels of care consistent with expectations of a class one park system.
7. To maintain a 90% customer satisfaction rating while achieving a cost-per-square-foot equal to or less than the International Facilities Management Association (IFMA) National Standards for Operations and Maintenance cost for similar facilities.
8. To increase the per capita visitation to park facilities and services from the present per capita to an increase of 40%.
9. To respond to the interest in educational programs and events by schools, non-governmental agencies, and other groups by increasing the percent of program requests from "Partners in Recreation" by 20%.

Departmental Issues for FY 2011 and Beyond

1. Open a new recreation center.
2. Effectively manage new programs for participants of all ages and capabilities.

Senior Services

Mission, Goals, Issues, Performance Measurements and Budget

Senior Services (Mission Statement)

The mission of the Senior Services Department is to enhance the quality of life for Clayton County's senior adult population by promoting healthy aging and relative caregiver programs. The focus is to enable seniors to maintain their independence in the community by addressing the human services and leisure activity need. Services are provided at senior recreation facilities, intergenerational center, in the client's home or over the telephone.

Senior Services (Functions)

Promote programs for the County's senior adult population.

Senior Services (Goals and Issues)

1. Implement Health Promotion and Disease Prevention Programs for older adults.
2. Improve nutrition services for the congregate, adult day health, Meals-on-wheels and senior centers.
3. Implement additional staff-taught classes in the senior centers, in order to generate additional revenue.
4. Implement a Worksite Wellness Program for senior services staff.

Departmental Issues for FY 2010

1. To raise awareness of Clayton County Kinship Care Programs and services provided through community outreach, media campaigns, direct mail, and public speaking engagements.
2. To develop a marketing program for volunteer recruitment for our home delivered meals program.
3. To identify community partners and funding sources to support the Senior Services Department Programs.

Departmental Issues for FY 2011 and Beyond

1. To continue to identify community partners and funding sources.

Sheriff's Department

Mission, Goals, Issues, Performance Measurements and Budget

Sheriff (Mission Statement)

To work in partnership with the community while seeking to preserve a peaceful society, serve all lawful orders, attend all courts, and hold safe the County Jail to the well-being of all citizens, employees, and inmates alike.

Sheriff (Functions)

To serve as the arm of the court in all matters of criminal warrants and civil process, to attend each court session, keep safe the County Jail, provide security to the Criminal Justice Complex and any annex thereof, and general law enforcement duties.

Sheriff (Goals and Issues)

Departmental Goals

1. Keep safe the County Jail by providing a safe and secure environment through adequate staffing, appropriate training, conscientious supervision, and compliance with accepted standards.
2. Attend each court session and therein provide service and security to that court in an effort to aid in the timely processing of all cases.
3. Diligently seek to serve and carry out all legal orders issued by the courts in both criminal and civil matters.
4. To provide security for the Criminal Justice Complex and any other annex or office maintained by any of the several courts of the County in an effort to ensure the safety of court staff and general public.
5. To oversee and manage the Work Release Program.

Departmental Issues for FY 2010

1. The anticipated increase in the number of courts to be operated on a regular basis will increase the demand for service to those courts in all areas. Increased crime, population, law enforcement activity (county & municipal), etc. are factors likely to occur that will further increase demand for service in all areas.
2. Excessive overtime, and the resulting strain upon staff, will continue unless acted upon in a decisive and appropriate manner.
3. Infrastructure, equipment and operating systems in the County Jail showing signs of deterioration due to age and length of service are likely to compromise the standard of care, security, and safety necessary for proper operations.
4. High mileage, increased service costs, and lack of replacement vehicles may very well impact ability to carry out daily duties and operations.

Departmental Issues for FY 2011 and Beyond

1. Increases in jail population will add further strain to infrastructure and systems.
2. Increased court activity (i.e., court sessions, criminal warrants, civil processes, etc.) will drive the need for staff to be available for service.
3. Establishing an off site Work Release program, thus eliminating direct impact upon the county jail.

1. Provide a safe and dependable roadway transportation system for the public.
2. Continue to seek funding opportunities for departmental operations including: federal funding, state funding, city funding, grants, private development, and other miscellaneous sources.
3. Operate and maintain our transportation system in an economically efficient manner.
4. Oversee our public transit system (C-TRAN), insuring a safe, fair, and federally compliant system for all users.
5. Accept and dispose of waste in Clayton County and the surrounding areas at a minimal cost for customers and in a cost effective manner for the county.
6. Maintain and operate the Clayton County Airport (Tara Field) in an effective and cost efficient manner.
7. Continue oversight of SPLOST transportation projects, insuring our citizens receive quality, beneficial, and cost efficient projects that improve our transportation system.

Departmental Issues for FY 2010

1. Maintaining service and employee moral during current economic situation and potential county government reorganization and impacts to the Transportation and Development Department.
2. Stabilize management oversight daily operations, and budget expenditures of the County's C-TRAN public transit system.
3. Continue direct oversight and daily management of 2004 SPLOST projects since CH2M Hill vacated their program management role.
4. Provide a smooth transition from the 2004 SPLOST Program to the 2008 SPLOST Program.
5. Continue to ensure the County Landfill remains profitable during the recent downturn in the economy and reduced disposals by private companies.
6. "Do more with less" given the current economy and proposed budget reductions.
7. Manage, support, and foster the implementation of Master Plan improvement projects at the County's Tara Field Airport if approval is granted by the Board of Commissioners and funding is available.
8. Project delays and cost increases due to Georgia DOT's inability to authorize project funding. Also includes Georgia DOT's lack of timely reviews and additional requirements placed upon the County.

Departmental Issues for FY 2011 and Beyond

1. The hiring and retention of qualified staff.
2. Financial vitality of the County C-TRAN public transit system given the amount of required financial subsidies by the County and the demand for service enhancement and expansion.
3. Management and profitability of the County's Tara Field Airport given its current condition and potential Master Plan improvements.
4. Implementation and management of 2008 SPLOST projects.
5. Reduction in the amount of transportation funding available from the federal and state level governments.

**CLAYTON COUNTY, GEORGIA
LEGAL DEBT MARGIN
GENERAL OBLIGATION DEBT
FOR THE FISCAL YEAR ENDED 2010**

Clayton County follows the debt policies listed below in addition to the limits established by the Georgia Constitution. (1) Clayton County will confine long-term borrowing to capital improvements and moral obligations. (2) Clayton County will not use short-term debt for operating purposes. (3) Clayton County will follow a policy of full disclosure on every financial report and bond prospectus. (4) General obligation debt will not be used for Enterprise Fund activities. (5) Clayton County will use general obligation debt to fund general-purpose public improvements, which cannot be financed from current revenues, available fund balances, or other current sources of capital financing. (6) Clayton County will limit the use of capital lease purchases, certificates of participation and other types of short-term debt when possible.

Article 9, section 5 Paragraph I of the Georgia Constitution establishes the maximum debt limits for counties and other political subdivisions of the State. Under the Constitution, certain types of debt issued by a political subdivision, including counties, cannot exceed an amount which is equal to 10 percent of the assessed value of all taxable property located within that particular entity.

As indicated by the calculation in the table below, the legal debt margin of Clayton County at the beginning of the 2010 fiscal year is approximately \$826,051,144. Because this amount is based on the latest tax digest (i.e., the 2008 calendar year) that has been approved by the State of Georgia Department of Revenue, one would expect a similar calculation based on January 1, 2009 assessments.

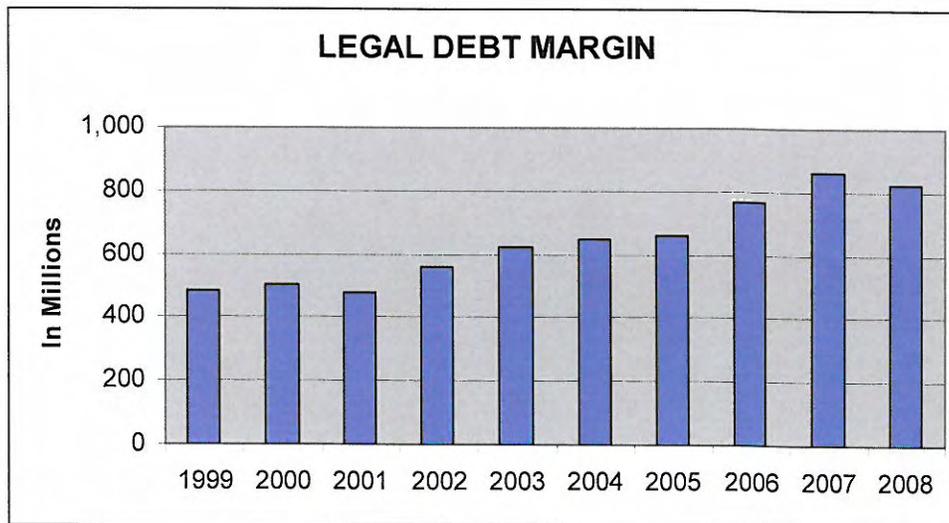

The legal debt margin amount is important in that it represents the net amount of external financing resources that is available to the County through the issuance of general obligation (G.O.) bonds. G.O. bonds are debt instruments issued in the name of the government and whose repayment is guaranteed through a pledge of full faith and credit of the issuer. In layman's terms, when the majority of voters in a county approve a G.O. bond referendum, they are guaranteeing the purchaser of that bond that they will pay property taxes in an amount sufficient to redeem the bond upon maturity and pay the interest earned on the outstanding bonds.

TAX YEAR EXPENDITURES	ASSESSED VALUE	APPLICABLE PERCENTAGE	DEBT LIMIT	CURRENT G.O. DEBT	LEGAL DEBT MARGIN
2008	\$8,566,561,443	10.00%	\$856,656,144	\$30,605,000	\$826,051,144

The legal debt margin is calculated at any point in time by deducting the amount of the current outstanding G.O. debt from the statutory debt limit. The reason for performing this calculation is to determine the maximum amount of new debt that could be legally issued should the need arise. With the annual budgeted expenditures in the General Fund being around \$159 million, there would appear to be more than sufficient debt capacity available to the County. Adhering to the policies of fiscal conservatism is part of the reason that the County's general obligation bond rating is Aa2 (on watch list) by Moody's Investors Service, Inc. and AA by Standard and Poor's Rating Services.

CLAYTON COUNTY, GEORGIA
SCHEDULE OF DEBT
AS OF JUNE 30, 2007

LONG-TERM DEBT

Primary Government General Obligation Bonds Payable

Revenue bonds are as follows:

2003 Issue: \$22,785,000 including \$11,640,000 in serial bonds maturing from 2004 through 2022, with interest rates ranging from 2.00% to 4.50% and \$11,145,000 in term bonds maturing from 2013 to 2028, with interest rates ranging from 4.25% to 5.375%.

In April 2003, the Clayton County Board of Commissioners issued \$22,785,000 of Urban Redevelopment Agency of Clayton County Revenue Bonds (the "Series 2003 Bonds"). This issuance included a premium of \$13,091 which is added to the balance of the bonds and amortized over the life of the bonds. These bonds were issued to finance the cost of acquiring, constructing, and installing a new police headquarters and communications facility, and of acquiring and renovating a building for use as a public health center and storage and office space.

The URA's source of revenues to pay for the principal and interest of the bonds is an intergovernmental agreement between the URA and the County, whereby the County will make installment payments on the purchase of various facilities constructed with the revenue bond proceeds in amounts sufficient to meet debt service requirements. As security for this agreement, the County has pledged to the URA its full faith and credit and unlimited taxing power to make such payments. The County has agreed that it will exercise its powers of taxation to the extent necessary to pay amounts required under this agreement and will make available and use all taxes levied and collected for this purpose, together with funds received from other sources, for these payments. The obligation of the County to make payments under this agreement from its general funds constitutes a general obligation of the County.

2005 Issue: \$4,405,000 maturing from 2006 through 2028, with interest at 4.06%.

In July 2005, the Clayton County Board of Commissioners issued \$4,405,000 of Urban Redevelopment Agency of Clayton County Revenue Bonds (the "Series 2005 Bonds"). This bond was issued to provide additional monies to finance the cost of acquiring, and renovating a building for use as a public health center and storage and office space.

The URA's source of revenues to pay for the principal and interest of the bond is an intergovernmental agreement between the URA and the County, whereby the County will make installment payments on the purchase of various facilities constructed with the revenue bond proceeds in amounts sufficient to meet debt service requirements. As security for this agreement, the County has pledged to the URA its full faith and credit and unlimited taxing power to make

such payments. The County has agreed that it will exercise its powers of taxation to the extent necessary to pay amounts required under this agreement and will make available and use all taxes levied and collected for this purpose, together with funds received from other sources, for these payments. The obligation of the County to make payments under this agreement from its general funds constitutes a general obligation of the County.

2003 Issue: \$10,000,000 maturing from 2005 through 2009, with interest at 2.43%.

In December 2003, the Clayton County Board of Commissioners issued \$10,000,000 of Clayton County Tourism Authority Revenue Bonds (the "Series 2003 Bonds"). These bonds were issued to finance the cost of acquiring, constructing and installing recreation centers in Clayton County.

The Tourism Authority's source of revenues to pay for the principal and interest of the bonds is an intergovernmental agreement between the Tourism Authority and the County, whereby the County will make installment payments on the purchase of the various facilities constructed with the revenue bond proceeds in amounts sufficient to meet debt service requirements. As security for this agreement, the County has pledged to the Tourism Authority its full faith and credit and unlimited taxing power to make such payments. The County has agreed that it will exercise its powers of taxation to the extent necessary to pay amounts required under this agreement and will make available and use all taxes levied and collected for this purpose, together with funds received from other sources, for these payments. The obligation of the County to make payments under this agreement from its general funds constitutes a general obligation of the County.

Discretely Presented Component Units Bonds Payable

In July 1997, the Clayton County Board of Commissioners issued \$2,415,000 of Solid Waste Management Authority Revenue Bonds (the "Series 1996 Bonds"). These bonds were issued to further finance the costs of acquiring, constructing and monitoring the County's landfill. At June 30, 2008, \$1,370,000 in these bonds was outstanding.

In April 2006, the Clayton County Board of Commissioners issued \$13,235,000 of Solid Waste Management Authority Refunding Bonds (Series 2006A & 2006B). The Series 2006A bonds, \$3,235,000, were issued to fund the closure and post closure costs associated with landfill sites 2 and 3. The Series 2006B bonds, \$10,000,000, were issued to refund the Solid Waste Management Authority Revenue Bonds Series 2000 and Series 2002. At June 30, 2007, \$12,465,000 in these bonds were outstanding.

On September 22, 2005, the Development Authority of Clayton County issued Series 2005 advance refunding bonds in the face value amount of \$29,815,000 with interest rates from 3.00% to 5.45%. Series 2005 Bonds was divided further into Series A and Series B tax-exempt bonds in the face value amount of \$13,905,000 and \$10,730,000 respectively and Series C taxable bonds in the face value amount of \$5,180,000. The Series A bonds were issued to advance refund and defease the Series 1999A bonds. The Series B bonds were issued to advance refund and defease the portion of the Series 1999B Bonds attributable to the Series 1999B Bond proceeds expended for a tax-exempt governmental purpose. The Series C Bonds were issued to advance refund and defease portions of the Series 1999B not refunded with the Series 2005B. Of those proceeds, \$29,883,077 were used to purchase U.S. government securities to pay interest and advance refund \$26,500,000 of the Series 1999 Bonds with interest rates from 4.80% to 8.00%. These U.S. government securities were deposited with an escrow agent to provide for debt service and refunding of the Series 1999 Bonds from August 2006 to August 2023. The advance refunding resulted in a decrease of total debt service payments of approximately \$2,600,000 and resulted in an economic gain of approximately \$2,500,000. For financial reporting purposes, the debt has been considered defeased and therefore removed as a liability for the financial statements

The Series 2005 Bonds are limited obligations of the Development Authority of Clayton County. The Series 2005 Bonds are payable solely from the Pledged Revenues (as defined the Bond documents) and amounts to be paid by the County to the Authority pursuant to an Intergovernmental Contract dated September 1, 2005 (the "Contract") between the Authority and the County. The County's obligation to make payments to the Authority sufficient in time and amount to enable the Authority to replenish the debt service reserve account is absolute and unconditional and will not expire so long as any of the Series 2006 Bonds remain outstanding and unpaid. Under the contract, the County has agreed to pay the Authority amounts sufficient to replenish the debt service on the Series 2005 Bonds and to levy an ad valorem tax, unlimited as to rate or amount with respect to the Series 2005 Bonds on all property in the County subject to such

tax in the event that the Net Revenues are insufficient to replenish debt service on the Series 2005 Bonds. The first semi-annual principal payment on the bonds began on August 1, 2006.

Interest on the Development Authority bonds above is payable semi-annually on February 1 and August 1 of each year. The bonds have interest rates that vary with their principal maturity. All bonds are callable by the Development Authority without penalty prior to their scheduled maturity date under certain conditions.

On July 20, 2004, the Housing Authority of Clayton County issued \$7,305,000 of Multifamily Housing Revenue Refunding Bonds (the "Series 2004 Bonds"). These bonds were issued to finance the cost of refunding the Series 1995 Multifamily Housing Revenue Bonds.

The Housing Authority's source of revenues to pay for the principal and interest of the bonds are revenues generated by the Advantages Apartments, a low-income apartment complex. As security for this issuance, the County has pledged to the Housing Authority its full faith and credit and unlimited taxing power to make such payments. If at any time the Housing Authority is unable to meet the debt service requirements the County has agreed that it will exercise its powers of taxation to the extent necessary to pay amounts required under this agreement and will make available and use all taxes levied and collected for these payments. The obligation of the County to make payments under this agreement from its general funds constitutes a general obligation of the County.

LANDFILL CLOSURE AND POSTCLOSURE COSTS

State and Federal Laws and Regulations require the County to place a final cover on its landfill sites when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. Governmental Accounting Standards Board Statement No. 18 requires the County to report a liability for the estimated costs of closing and maintaining the landfills.

During the year the County operated one landfill site (Site 3):

Site 2 - The County stopped accepting waste at this landfill site during the year ended June 30, 1996 upon reaching full capacity. The County estimated the costs of closing and maintaining this site, based on landfill capacity used to date. The estimated long-term portion of the closure and post closure care costs, recorded in the entity-wide statement of net assets, is \$1,301,555 at June 30, 2008. This site was established and operated by the County's General Fund, hence the recording of the liability in the General Fund and entity-wide financial statements.

Site 3 - The County began operations of landfill Site 3 in July 1995. This site was established by, and operations are reported in, the discretely presented Landfill Fund. The County's engineers estimated total capacity of the site at 4,927,200 cubic yards and total closure and post closure costs at \$5,100,634. The estimated total current cost of the landfill closure and post-closure care is based on the amount that would be paid assuming all equipment, facilities and services required to close, monitor and maintain the landfill were acquired as of June 30, 2008. However, the actual cost of closure and post-closure care may be higher due to inflation, changes in technology or changes in landfill laws and regulations. The County recorded a liability of \$2,817,136 in the discretely presented landfill fund based on 2,721,347 cubic yards of capacity used since the site was opened. This represents 55% of the estimated total capacity at June 30, 2008. The estimated remaining landfill life is 26.9 years.

CLAYTON COUNTY, GEORGIA
GLOSSARY OF BUDGETARY AND FINANCIAL TERMINOLOGY

Accounting System – The total set of records and procedures which are used to record, classify and report information on the financial statements and operations of an entity.

Accrual Basis of Accounting – The method of accounting under which revenues are recorded when they are earned (whether or not cash is received at that time) and expenditures are recorded when goods and services are received (whether or not cash disbursements are made at that time).

Adopted Budget – The funds appropriated by the Board of Commissioners at the beginning of the year.

Ad Valorem Property Taxes – Taxes levied on an assessed valuation (40% of market value) of real and personal property, based on a valuation as of January 1 and a mill rate set by the County Commission.

Appropriation – An authorization made by the County Commission which permits officials to incur obligations against and to make expenditures of governmental resources. Appropriations are usually made for fixed amounts and are typically granted for a one-year period.

Asset – All the property such as cash, inventory, and receivables that are owned by a business or government and may be applied to cover liabilities.

Balanced Budget – Budgeted appropriations/expenditures must be equal to budgeted anticipations/revenues.

Bond – A written promise to pay a specified sum of money (called principal or face value) at a specified future date along with periodic interest paid at a specified percentage of the principal. Bonds are typically used for long-term debt.

Budget – A financial plan for a specific period of time that matches all planned revenues and expenditures with various County services.

Budget Adjustment – A legal procedure utilized by the County staff to revise a budget appropriation. In Clayton County, line item transfers adjust expenditures within a departmental budget and must be authorized by the County Commission Chairman. The County Commission must approve any budget amendments which increase in the total budget for a department or increase wages.

Budget Basis – Method of calculating usable funds available for appropriation. There are noted differences in comparison to GAAP basis.

CLAYTON COUNTY, GEORGIA
GLOSSARY OF BUDGETARY AND FINANCIAL TERMINOLOGY

Budget Schedule/Calendar – The schedule of key dates or milestones, which the County follows in the preparation, adoption and administration of the budget (See page 97).

Budget Document – The instrument used by the County Commission Chairman to present a comprehensive financial plan to the County Commission.

Budget Message – A general discussion of the proposed budget presented in writing. The transmittal letter explains the principal budget issues and presents recommendations.

Budget Ordinance – The official enactment by the County Commission legally authorizing County Officials to obligate and expend resources.

Budgetary Control – The control or management of a governmental unit or enterprise in accordance with an approved budget for the purpose of keeping expenditures within limitations of available appropriations and available revenues.

Capital Asset – Assets of significant value and having a useful life of more than one year. Capital assets are also called fixed assets.

Capital Budget – A plan of proposed capital expenditures and the means of financing them. The capital budget is usually enacted as part of a complete annual budget, which includes both operating and capital outlays. The capital budget should be based on a capital improvement program.

Capital Improvement Program – A multi-year plan used to identify needed capital projects and coordinate their timing and methods of financing.

Capital Improvement Project – An item in excess of \$5,000 for which the purchase, construction or other acquisition will represent a public betterment to the community and add to the total capital assets of the County.

Capital Outlay – Includes outlays which result in the acquisition of or addition to fixed assets. In Clayton County, the item must have a cost greater than \$5000 and have a useful life greater than one year.

Contingency – A budgetary reserve set aside for emergencies or unforeseen expenditures not otherwise budgeted.

Cost Centers – An organizational budget or operating unit within the county.

Debt – An obligation resulting from the borrowing of money or from the purchase of goods or services over a period of time. Legal definitions of debt vary and are determined by constitutional provisions, statutes and court decisions.

CLAYTON COUNTY, GEORGIA
GLOSSARY OF BUDGETARY AND FINANCIAL TERMINOLOGY

Enterprise Fund – A governmental accounting fund in which the services provided are financed and operated similarly to those of a private business. The rate schedules for these services are established to ensure that revenues are adequate to meet all necessary expenditures.

Expenditure – Outflows of liabilities from delivering or producing goods, rendering services, or carrying out other activities that constitute the entity’s ongoing major or general operations.

Fiscal Year – The time period designated by the County signifying the beginning and ending period for recording financial transactions. Clayton County has specified July 1 to June 30 as its fiscal year.

Fixed Asset – Assets held or used for greater than one year with a cost over \$5000 such as land, buildings, equipment and furniture.

CLAYTON COUNTY, GEORGIA
GLOSSARY OF BUDGETARY AND FINANCIAL TERMINOLOGY

Fund – A fiscal and accounting entity, which is comprised of a self-balancing set of accounts which reflect all assets, liabilities, equity, revenue and expenditures or expenses necessary to disclose financial position and the results of operations. Funds are established as individual entities in order to segregate financial records for the purpose of legal compliance, different natures of the activities performed, and measurement of different objectives and to facilitate management control.

Fund Balance – Refers to the excess of current assets over current liabilities.

General Obligation Bonds (G.O) – Bonds sold to raise revenue for long-term capital financing needs. These bonds, which pledge the full faith and credit of the County must be approved by voter referendum. The cost of financing is spread over the life of the improvement so that future users help to repay the cost of the improvement.

General Sales and Use Tax – A percentage tax imposed upon the sale or consumption of goods and/or services.

Grant – A contribution by a government or other organization to support a particular function or program.

Infrastructure – Basic installations and facilities (i.e., roads, bridges) upon which the continuance and growth of a community depend.

Insurance Premium Tax – A tax on the gross direct premiums received during the preceding year from policies for fire and casualty insurance issued upon property and business located within the State of Georgia. The tax is distributed based on census population numbers.

Intangible Tax – Tax levied on intangible personal property such as securities, mortgages and cash based on returns filed with the State of Georgia.

Intergovernmental Revenue – Revenues received from other governmental entities in the form of grants, entitlements, shared revenues or payments in lieu of taxes.

Interest Income – Revenue earned for the use of idle monies.

Interfund Transfer – Contributions and operating transfers of cash made between the various funds of the County.

Investment – Securities purchased and held for the production of income in the form of interest, dividends or base payments.

CLAYTON COUNTY, GEORGIA
GLOSSARY OF BUDGETARY AND FINANCIAL TERMINOLOGY

Lease Purchase – A method of acquiring high cost equipment or property and spreading the payments over a specified period of time.

Liability – Debt or other legal obligations arising out of transactions in the past, which must be liquidated, renewed or refunded at some future date. This term does not include encumbrances.

Line-Item Budget – A budget that lists each expenditure category separately along with the dollar amount budgeted for each specified category. Clayton County utilizes a line-item budget.

M&O – Refers to the general *maintenance and operation* of the County, including expenses of administration, public improvements, the courts, public health and sanitation, police department, narcotics unit, medical and other care and hospitalization for the indigent sick, agricultural and home demonstration units, welfare benefits and other public assistance, fire protection of forest lands, retirement and pension benefits, hospitalization benefits, workers' compensation benefits, a parks and recreation system, and for any and all purposes necessary and incidental to the operation of County Government.

Millage Rate – The ad valorem tax rate expressed in terms of the levy per thousand dollars of taxable assessed value of the property. One mill is equal to one dollar per thousand.

Modified Accrual Basis – The basis of accounting under which expenditures other than accrued interest on general long-term debt are recorded at the time liabilities are incurred and revenues are recorded when received in cash except for material and/or other available revenues which should be accrued to reflect properly the taxes levied and revenue earned.

Operating Budget – The portion of the budget pertaining to daily operations and provides basic governmental services. The operating budget contains appropriations for such expenditures as personnel, supplies, utilities, travel, fuel and capital outlay.

Performance Measures – Specific quantitative and qualitative measures of work performed as an objective of the department or cost center.

Personal Property – Tangible property other than land, buildings and motor vehicles, including mainly business equipment, machinery, fixtures, leasehold improvements, boats & airplanes.
