Lanell Johnson reported that the Department's productivity has increased significantly. A new Intake process was implemented to ensure more Individuals are seen per day, which meets KPI standards. The overall productivity set goal is 80%. Additionally, Behavioral Health will be starting Counseling and Anger Management group sessions. Also, a Trauma group session will start specifically for men.

CYAF – Children, Young Adults and Families

A handout was provided identifying the productivity for CYAF.

The Apex Grant will be one of the key elements that will aid in enhancing the services and revenue at CYAF.

Tiffany Tom-Johnson, Chief Operating Officer, provided a handout of the overall productivity for the Agency.

Addicted Disease Program's productivity decreased in October, due to having only one employee within the Department. Currently, the Addictive Disease program is almost fully staffed.

Case Management Program is fully staffed and this allows staff the opportunity to see more individuals within the community.

Telemedicine is working successfully at the Battle Creek location. Implementation of Telemedicine will begin next month, starting two days a week, at CYAF.

Adult Day Service is still exceeding productivity expectations.

Staying engaged with the individuals is one way to increase productivity and to decrease the no show rates.

Dr. Cheever made the following comments about Productivity expectations:

- Increase communicating and understanding how we serve our clients.
- Procedures and guidelines will be established to help increase productivity.
- Communicating with Individuals within 48 hours regarding appointments
- Corrective Action Plans are to hold clinicians accountable for not meeting their productivity expectations.
- Percentages must increase to prevent layoffs.

The Board Committee Members are willing to meet with staff members to address concerns and to discuss solutions to help accomplish their productivity expectations. Therefore, Ms. Butler is requesting that a meeting be scheduled with Managers and non-performing staff members by January 15, 2016. Ms. Butler reiterate the seriousness of meeting and exceeding productivity expectations.
