

Community Improvement District (CID) Fact Sheet

What is a Community Improvement District (CID)?

A Community Improvement District (CID) is the most powerful public-private partnership tool today that is used successfully around the country to revitalize activity centers. It is a proven and effective method for financing improvements that directly enhance property values by allowing property owners to determine how funds are spent in their area. CID funds can augment existing services such as public safety and they can also be used to leverage additional public and private funds. Conservatively, CID funds can be used to leverage such funds at a ratio of 10 to 1.

How is a CID created?

A CID is a geographically defined district in which commercial property owners vote to impose a self-tax. To enact a CID, a simple majority of affected property owners having 75% of the assessed property value of the area must consent which is then ratified by the governing authority. Funds collected by the tax commissioner are disbursed to the CID which is administered by a board of directors that are elected by the property owners.

What types of improvements can a CID make?

The Georgia Constitution specifies that funds collected through a CID may be used for:

1. Street and road construction and maintenance
2. Parks and recreational areas and facilities
3. Storm water and sewage
4. Development, storage, treatment, etc. of water
5. Public transportation
6. Parking, terminal and dock facilities
7. Other services and facilities i.e. Public safety

How much is the CID investment and how is it calculated?

The annual CID investment will be included on your County Property Tax Bill. After the CID is created and a Board of Directors (BOD) is formed, the BOD sets the annual millage rate for the CID investment. It is recommended to be set between 3 and 5 mills. 5 mills equates to approximately \$2,000 per \$1,000,000 of the Appraised Property Value. The millage rate of CIDs in Georgia range from 3 to 5 mills.

For example, if the County appraises a property at \$1,000,000, then the calculations would be as follows: **[APV * 40% * 5 mills = \$1,000,000 * .40 * .005 = \$2,000.]**

When is the first CID investment due?

The goal is to have property owner consent forms by the deadline provided by the Tax Commissioner's Office, which is typically April of each year. This allows the CID investment to be included on the County Property tax bill for the current year; therefore, when property taxes are paid directly to the County, the CID investment is included. The Tax Commissioner transmits the collected funds directly to the CID to be used ONLY within the boundaries of the CID area for expenditures in accordance with the purposes of the CID.

How long will the CID investment be paid?

CIDs are created for six years as stated in the state legislation. At the end of six years, property owners can vote to continue for another six years or vote to dissolve the CID. No CID in the state of Georgia has ever voted to dissolve. The Cumberland CID was formed in 1988 and is the oldest CID in Georgia.

Why is there a notarized Written Consent of Owner Form?

The notarized Written Consent of Owner Form is proof to the Tax Commissioner that you are the owner of the property and are consenting to participate in the CID. The printed name of the person completing the form (usually the Property Owner goes on the first blank on the form. On the blank line in #1, the Parcel ID assigned for the property is printed. On the blank line in #2, the property owner's name is printed. On the blank line for #3, either the property owner's name or the name of the person who will represent the property owner is printed. The property owner then signs the line marked "(SEAL)". Lastly the form is to be notarized and given to a CID formation team representative or mailed to a specific address given.

Why should a Property Owner join the CID?

- To provide input on projects that improve property values and drive economic development
- To leverage CID funding and resources for transportation and infrastructure needs, public safety, and specific local government issues like permitting, zoning, etc.
- To be an active participant and advocate for your business community
- To have a united voice with community leaders and elected officials
- To easily access local, state and regional organizations and representatives
- To tie into organized branding for the community for marketing and public relations
